Mr. Dan Van Schalkwyk, P.E., Director
Town of Ayer-Public Works Department
25 Brook Street
Ayer, Massachusetts

Re: ASTM Transaction Screen Report
71 Sandy Pond Road, Ayer, MA 01432

Dear Mr. Van Schalkwyk:

Cooperstown Environmental LLC (Cooperstown) is pleased to present the results of the limited due diligence – Environmental Transaction Screen for 71 Sandy Pond Road in Ayer, Massachusetts, the "Subject Property" or "Property". The environmental transaction screen has been performed in accordance with American Society for Testing and Materials (ASTM) E1528-22 "Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process." This report does not constitute "All Appropriate Inquiry" as defined by Environmental Protection Agency (EPA) nor meet the standards of a Phase I Environmental Site Assessment (i.e., "21E Report") prepared per ASTM E 1527-21.

The purpose of this report is to identify potential environmental risks as defined in the standard to allow you (the user) to decide if further investigation is warranted prior to the purchase of the Property. The following sections summarize our findings regarding the Property.

1. Environmental Site Assessment Transaction Screen Questionnaire

Cooperstown conducted a Limited Environmental Due Diligence Transaction Screen according to ASTM E 1528-22. A main portion of this standard includes interviewing the owner and/or other parties knowledgeable about the Property. Mr. Brent Routhier, a representative of the current owner North Country Developers LLC, responded to the questions on the questionnaire during a site visit conducted on March 14, 2024. The questionnaire is included as Attachment 1.

The respondent answers questions to the best of his or her knowledge and is not expected to supply any supporting information. Any of the respondent's answers to questions in the affirmative or unknown are assumed to be potential environmental concerns. However, the respondent's answers can be evaluated considering supporting information gathered during site reconnaissance and the historical records review.

Mr. Routhier answered no to all the questions except for question 3.5, which asks about pits, ponds or lagoons on the Subject Property or adjacent properties. Mr. Routhier is aware that Sandy Pond is present to the northeast of the Subject Property, and that there is a small body of water (a stream or a pool) along the west border between the Subject Property and the next residence. Mr. Routhier was not aware of any disposal practices associated with these bodies of water and no evidence of a release of oil or hazardous material (OHM) related to these bodies of water was observed during the site visit.

2. Government Records and Historical Sources Inquiry

The government sources inquiry was prepared for Cooperstown by Environmental Data Resources (EDR). EDR also provided the City Directory information and Sanborn Fire Insurance Maps. Information provided by EDR is included in Attachment 2.

Cooperstown reviewed this information and completed a questionnaire regarding historical government resources on the Subject Property and the adjoining properties. The questions which were answered in the affirmative, indicating the existence of a record, are summarized in the table below. All responses are listed in the Transaction Screen Questionnaire (Attachment 1) and a full list of sites is available in the EDR documents (Attachment 2).

Table 1: Summary of Sites Found within the Minimum Search Distance

Database	Min. Search Distance (Miles)	Number of Listed Sites	Site Names
List of Federal NPL (Superfund) sites	1	1	Fort Devens at 1650 Buena Vista, the tip of the site is just within a 1 mile radius of the Subject Property to the southwest.
RCRA CORRACTS	1	1	Fort Devens at 1650 Buena Vista, the tip of the site is just within a 1 mile radius of the Subject Property to the southwest.
State and Tribal Hazardous Waste Facilities (MA SHWS)	0.5	18	See EDR Executive Summary. One site is within 500 ft- Sandy Pond Sub Station, located about 180 feet to the west. This was a release of about 150 gallons of mineral oil dielectric fluid which was cleaned up via excavation and closed out in February 1999.
State and Tribal-leaking storage tank lists	.5	1	Epic Enterprises Inc. is located .387 miles away to the southwest. The release from the aboveground storage tank was closed in September 2021.

The Subject Property and the adjoining properties are not listed in any database searched for this Transaction Screen.

Cooperstown reviewed the sites found within the minimum search distances of the Subject Property and determined that none of the sites reviewed are expected to affect the Subject Property.

EDR conducted a search of Sanborn Fire Insurance maps and determined that fire insurance maps are not available for this area of Ayer. The documentation of the search is included in Attachment 2.

EDR provided City Directories of Sandy Pond Road and Snake Hill Road (the street perpendicular to Sandy Pond Road which intersects at the north corner of the Subject Property) for the years 1984, 1989, 1992, 1995, 2000, 2005, 2010, 2014, 2017, and 2020. Cooperstown reviewed these records and identified that the Property has been used as a residence or multi-family residence since at least 1990. Two resident names are given from 1990 through 2005 and one resident is listed in 2010 and 2014. In 1984, 2017 and

2020 there are no listings for 71 Sandy Pond Road. Cooperstown did not identify on the Subject Property or adjoining properties industrial or other uses that would likely lead to contamination of the Property.

3. Town of Ayer Information Review

A Public Records request was submitted to the Ayer Assistant Town Manager on March 4, 2024. Information obtained from the town is included in Attachment 3. Information from municipal offices can be used to determine if there is a history of flammable storage at the Property or if there were complaints regarding illegal dumping or clearing of the Property. Municipal building department records can be used to confirm that the Property is connected to the public water supply and sewer service. The following information obtained is listed below:

Fire Prevention: A request to review files was made to the Fire Department on March 14, 2024, and the Fire Department responded on the same day that the files they had on record for the Subject Property were a few smoke detector or brush burning permits, they had no records related to OHM storage.

Building Department Records: The Ayer Town Manager provided building department records on March 15, 2024, and those records are included in Attachment 3. There was one letter dated January 20, 1989, about a Health Nuisance Condition existing on the Property for the presence of trash, abandoned furniture, and an abandoned truck. There was also a letter and several follow-up letters circa November 2022 about unregistered vehicles on the Property. During the site reconnaissance, no unregistered vehicles, no trash, or abandoned furniture, were observed onsite, so these former violations are not considered a potential environmental concern on the Subject Property.

Other information of interest included a permit to demolish the building, issued February 14, 2024, and a permit dated December 2, 2022, to install a wood stove.

Water and Sewer Records: The Ayer Town Engineer from the Department of Public Works responded on March 12, 2024, that the Subject Property was never connected to municipal sewer services, and that the department does not have records of the old on-site septic system. Septic systems can serve as preferential pathways for a release of OHM to the subsurface, however, given the historical residential use of the Subject Property, a significant release of OHM through the septic system does not seem likely.

The Town Engineer also confirmed that the former building on the Subject Property had been connected to the municipal water line.

4. Site Reconnaissance

The site reconnaissance was conducted on March 14, 2024. A representative of the owner of the Property, Mr. Brent Routhier, accompanied Cooperstown during the site reconnaissance. The site was traversed on foot, along the perimeter and through the center of the lot. Site reconnaissance photos are included in Attachment 4. Site reconnaissance information is also included on the Transaction Screen Questionnaire included as Attachment 1. The following observations were made during site reconnaissance:

<u>Exterior Observations:</u>

The Property is a vacant lot. According to the owner, the building was demolished about one month prior to the visit. The northern portion of the lot is paved with asphalt, and the south portion where the building was is unpaved. No significant construction debris was observed onsite. One pad-mounted transformer was observed in the northwest corner of the Subject Property and appeared to be in good condition with no observed rust or leaks. A body of water (a stream or a pool) was observed in the wooded area on the west border between the Subject Property and the next residence. One trailer was parked onsite at the time of the visit, the owner said the trailer was the Property of the town of Ayer, which was overseeing some roadway improvements further to the west on Sandy Pond Road. The surrounding properties were residences, except for the Sandy Pond Beach recreation area to the northeast. No storm drains or manhole covers were observed onsite. There was no evidence of dumping or apparent areas of fill observed. There did not appear to be stressed vegetation.

6. Deviations

The ASTM Standard Practice requires the disclosure of all deletions and deviations from this practice (if any) which shall be listed individually and in detail, including client-imposed constraints, and all additions should be listed. No deviations were applied to this report.

5. Conclusions

Our limited site assessment did not encounter evidence of potential environmental concerns for the Subject Property.

"I declare that, to the best of my professional knowledge and belief, I meet the definition of environmental professional as defined in §312.10 of 40 CFR 312" and "I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the Subject Property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312."

Very sincerely yours,
Cooperstown Environmental LLC

Part A: Transaction Screen Questionnaire for Owner and Occupant
(A separate questionnaire must be completed by the owner and each responding occupant of the subject property.)

1 Description of the Subject Property and Adjoining Properties

Description of Subject Property: Vacant Lot / Prior Duplex (residential) Candy Shop ~1950s

Subject Property Owner: North Country Developers LLC (Rep Brent Routhier)

Subject Property Address: 71 Sandy Pond Road, Ayer

Subject Property Parcel ID Number or Other Location Description: 019029000000010

Subject Property Occupants, Percent Occupied, and Use: Vacant lot, building demolished. Site unoccupied

Description of Adjoining Properties (provide observable address, occupant name, and use):

North: Sandy Pond Road, Residence, Beach Recreation Area

East: Snake Hill Road, Residences

South: Residences

West: Residences

	9.17	Lists of state and tribal brownfield sites		0.5 (0.8)	Yes No ✓		Yes No ✓	Yes No ✓		
		FOOTNOTES for Government Records Section 1 Records should be researched for both currently active and formerly active sites. 2 Sites where, following an initial investigation, no contamination was found, contamination was removed quickly without the need for the site to be placed on the NPL, or the contamination was not serious enough to require Federal Superfund action. This should not be interpreted as there being no contamination at the site or that other regulatory agencies, such as at the state level, have not required further action. Such sites may be found on other environmental record sources.								
10		**Historical Resources**								
	Based upon a review of fire insurance maps, local street directories, or aerial photographs, all as specified in the guide (8.10), are any buildings or other improvements on the subject property or on an adjoining property identified as having been used for an industrial use or other uses likely to lead to contamination of the subject property?			On the **Subject Property**	On an **Adjoining Property**					**Comment/Explain all "Yes" responses** (For additional comment space use a separate sheet. Include the Question # you are responding to.)

11		Each Respondent's Contact Information and Signature		
The preparer responses were provided by:				
Preparer Name and Title with respect to subject property: Lauren Brown, Environmental Professional Hired by User		Preparer's Firm Name & Address: Cooperstown Environmental LLC		Preparer's Phone Number & Email Address: 978 470 4755, Lauren@cooperstownenv.com
Preparer's Role(s) at the subject property: Prepare TSA		Number of years preparer associated with the subject property: NA		Preparer's relationship to the user of this transaction screen: Hired Env. Professional
Preparer represents that to the best of the preparer's knowledge the above statements and facts are true and correct and to the best of the preparer's actual knowledge no material facts have been suppressed or misstated.				
Preparer's Signature		Date completed: 3/14/2024		Which portions of this questionnaire did this *preparer* complete? (complete a second signature page if more than one person prepares the questionnaire) All
Copies of the completed questionnaire have been filed at: NA		Or copies of the completed questionnaire have been mailed or delivered to: NA		
The user of this transaction screen: ☐		**Check if user is the same as the preparer.**		
User's Firm Name and Address **(OPTIONAL)**: Town of Ayer, Public Works Department		Phone Number & Email Address **(OPTIONAL)**:		User's relationship to subject property: Potential Purchaser
If the user is different from the preparer(s), the user shall sign Part B of the questionnaire affirming that the user has received both Parts A and B of the questionnaire. It is the user's responsibility to draw conclusions regarding affirmative or unknown answers.				
User's Signature **(OPTIONAL)**:		Date completed:		

NOTE: The completed transaction screen questionnaire and copies of supporting government records,reports,and historical resources must be retained in the user's files and at such additional locations as the user and the preparer, if different from the user, may determine. Copies of the completed transaction screen questionnaire SHOULD NOT be transmitted to ASTM International, which has no role in collecting or reviewing completed transaction screen questionnaires.

7. Guide to Transaction Screen Questionnaire

7.1 The following sets forth the guide to the *transaction screen questionnaire*. The guide accompanies the *transaction screen questionnaire* to assist the *preparer* in completing the *questionnaire*. Questions found in the *transaction screen questionnaire* are repeated in the guide. To further assist with identifying *potential environmental concerns*, Appendix X1 presents photographs of selected features and conditions, which are referenced in applicable sections throughout the guide.

7.2 The guide asks the *preparer* to consider answers to questions based on personal observations during the *site visit* portion of the assessment, and on the answers to the same questions for the *owner/occupant/operator* inquiries. In addition, the *transaction screen process* requires the *preparer* to make observations of the *subject property* and brief observations of *adjoining properties*. The following general guidance may be helpful to the *preparer* before turning to the specific questions.

7.2.1 Certain business activities are commonly associated with the use of chemicals (that is, *hazardous substances, petroleum products, or other chemicals of concern*) and chemical wastes. Such business activities may raise concerns regarding the possibility of contamination affecting the *subject property* from spills, discharges, and disposal of chemicals and wastes into the subsurface soil or groundwater, to surface waters, or into the air. Chemical use, handling, and storage activities before about 1980 were generally unregulated. The *preparer* should ask the current *owner*, *occupants*, and *operators* of their knowledge of current and past uses on the *subject property* and on *adjoining properties* specifically for each

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

EXECUTIVE SUMMARY

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: Also known as Superfund, the National Priority List database is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund program. The source of this database is the U.S. EPA.

A review of the NPL list, as provided by EDR, and dated 12/26/2023 has revealed that there is 1 NPL site within approximately 1 mile of the target property.

Lists of Federal RCRA facilities undergoing Corrective Action

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 12/04/2023 has revealed that there is 1 CORRACTS site within approximately 1 mile of the target property.

FORT DEVENS (Continued) **1000188646**

Summary Details:

Conditions at proposal July 14, 1989): Fort Devens is 35 miles west of Boston, Massachusetts, at the intersection of four townships: Ayer and Shirley in Middlesex County) and Lancaster and Harvard in Worcester County). The area is largely rural residential. Founded in 1917, Fort Devens has as its primary mission the training of active duty personnel to support various Army units. Fort Devens Sudbury Training Annex, 12 miles to the southwest, is also being proposed for theNPL at this time. Fort Devens covers 9,416 acres and can be divided into three areas: the 1,013-acre North Post; the 3,247-acre Cold Spring Brook Area, which is in the central part of the fort; and the 5,156-acre South Post. The first two areas are separated by West Main Street between Shirley and Ayer; the Cold Spring Brook area and South Post are separated by State Route 2. Fort Devens is participating in the Installation Restoration Program IRP), established in 1978.Under this program, the Department of Defense seeks to identify, investigate, and clean up contamination from ha ardous materials. IRP studies have identified 46 potential ha ardous waste areas including: the 15-acre Explosive Ordnance Disposal EOD) range, where explosives and unusable munitions have been detonated or burned in open unlined pits since 1979; the 50-acre sanitary landfill, where household wastes, military refuse, asbestos, construction debris, waste oil, and incinerator ash have been dumped since the 1930s; and Building 1650, where battery acids, PCBs, pesticides, and solvents have been stored. Monitoring wells near the sanitary landfill contain cadmium, lead, mercury, iron, and arsenic, according totests conducted in 1987 by an Army contractor. An estimated 21,700 fort employees and Ayer residents obtain drinking water from wells within 3 miles of the landfill; a Fort Devens well is 1,670 feet from the sanitary landfill. The 1987 testsalso found arsenic, chromium, nickel, and lead in surface water near the sanitary landfill. An 8-mile section of the Nashua River lies within the fort s boundaries. The 630-acre Oxbow National Wildlife Refuge is in the east central portionof Fort Devens on land the Army deeded to the Department of the Interior in 1973. An 83-acre wetland is in the refuge northeast of EOD. Status November 21, 1989): IRP activities continue.

Hazardous Waste Summary:

Waste Code:	D001
Waste Description:	Ignitable Waste
Waste Code:	D002
Waste Description:	Corrosive Waste
Waste Code:	D003
Waste Description:	Reactive Waste
Waste Code:	D006
Waste Description:	Cadmium
Waste Code:	D007
Waste Description:	Chromium
Waste Code:	D008
Waste Description:	Lead
Waste Code:	D009
Waste Description:	Mercury
Waste Code:	D011
Waste Description:	Silver
Waste Code:	D013
Waste Description:	Lindane (1,2,3,4,5,6-Hexa-Chlorocyclohexane, Gamma Isomer)
Waste Code:	D018
Waste Description:	Benzene
Waste Code:	D035
Waste Description:	Methyl Ethyl Ketone
Waste Code:	D039
Waste Description:	Tetrachloroethylene
Waste Code:	D040
Waste Description:	Trichlorethylene
Waste Code:	F001
Waste Description:	The Following Spent Halogenated Solvents Used In Degreasing: Tetrachloroethylene, Trichlorethylene, Methylene Chloride, 1,1,1-Trichloroethane, Carbon Tetrachloride And Chlorinated Fluorocarbons; All Spent Solvent Mixtures/Blends Used In Degreasing

FORT DEVENS (Continued) **1000188646**

Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F002
Waste Description: The Following Spent Halogenated Solvents: Tetrachloroethylene, Methylene Chloride, Trichloroethylene, 1,1,1-Trichloroethane, Chlorobenzene, 1,1,2-Trichloro-1,2,2-Trifluoroethane, Ortho-Dichlorobenzene, Trichlorofluoromethane, And 1,1,2, Trichloroethane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F001, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F003
Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F004
Waste Description: The Following Spent Nonhalogenated Solvents: Cresols, Cresylic Acid, And Nitrobenzene; And The Still Bottoms From The Recovery Of These Solvents; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005
Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: U007
Waste Description: 2-Propenamide (Or) Acrylamide

Waste Code: U036
Waste Description: 4,7-Methano-1h-Indene, 1,2,4,5,6,7,8,8-Octachloro-2,3,3a,4,7,7a-Hexahydro- (Or) Chlordane, Alpha & Gamma Isomers

Waste Code: U037
Waste Description: Benzene, Chloro- (Or) Chlorobenzene

FORT DEVENS (Continued) **1000188646**

Waste Code: U043
Waste Description: Ethene, Chloro- (Or) Vinyl Chloride

Waste Code: U051
Waste Description: Creosote

Waste Code: U114
Waste Description: Carbamodithioic Acid, 1,2-Ethanediylbis-, Salts & Esters (Or) Ethylenebisdithiocarbamic Acid, Salts & Esters

Waste Code: U122
Waste Description: Formaldehyde

Waste Code: U151
Waste Description: Mercury

Waste Code: U154
Waste Description: Methanol (I) (Or) Methyl Alcohol (I)

Waste Code: U159
Waste Description: 2-Butanone (I,T) (Or) Methyl Ethyl Ketone (Mek) (I,T)

Waste Code: U220
Waste Description: Benzene, Methyl- (Or) Toluene

Waste Code: U226
Waste Description: Ethane, 1,1,1-Trichloro- (Or) Methyl Chloroform

Waste Code: U228
Waste Description: Ethene, Trichloro- (Or) Trichloroethylene

Waste Code: U239
Waste Description: Benzene, Dimethyl- (I,T) (Or) Xylene (I)

Environmental Interest/Information System:
The Massachusetts - Environmental Protection Integrated Computer System (MA-EPICS) is the central repository for all environmental protection data for the State of Massachusetts.
The Toxic Release Inventory System (TRIS) is a publicly available EPA database reported annually by certain covered industry groups, as well as federal facilities. It contains information about more than 650 toxic chemicals that are being used, manufactured, treated, transported, or released into the environment, and includes information about waste management and pollution prevention activities.
The Integrated Compliance Information System (ICIS) provides a database that, when complete, will contain integrated enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information.

EPIC ENTERPRISES INC (Continued) **1000165761**

Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and it at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
The Department of Labor, Occupational Safety and Health Administration information system consists of inspection case detail for approximately 100,000 OSHA inspections conducted annually. The FRS dataset includes facilities that had inspections within the last 7 years within the mining, oil and gas, utilities, and manufacturing sectors.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 12/26/2023
Date Data Arrived at EDR: 01/02/2024

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 12/26/2023

Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Lists of Federal sites subject to CERCLA removals and CERCLA orders

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 12/20/2023

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of Federal RCRA generators

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

BROWNFIELDS: Completed Brownfields Covenants Listing

Under Massachusetts law, M.G.L. c. 21E is the statute that governs the cleanup of releases of oil and/or hazardous material to the environment. The Brownfields Act of 1998 amended M.G.L. c. 21E by establishing significant liability relief and financial incentives to spur the redevelopment of brownfields, while ensuring that the Commonwealth's environmental standards are met. Most brownfields are redeveloped with the benefit of liability protections that operate automatically under M.G.L. c. 21E.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs
A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

SPILLS 80: SPILLS80 data from FirstSearch

Spills 80 includes those spill and release records available from FirstSearch databases prior to 1990. Typically, they may include chemical, oil and/or hazardous substance spills recorded before 1990. Duplicate records that are already included in EDR incident and release records are not included in Spills 80.

Other Ascertainable Records

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS ECHO: Facilities in Industries that May Be Handling PFAS Listing

Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

PFAS ECHO FIRE TRAINING: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facilitys name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PART 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

AQUEOUS FOAM NRC: Aqueous Foam Related Incidents Listing

The National Response Center (NRC) serves as an emergency call center that fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. The spreadsheets posted to the NRC website contain initial incident data that has not been validated or investigated by a federal/state response agency. Response center calls from 1990 to the most recent complete calendar year where there was indication of Aqueous Film Forming Foam (AFFF) usage are included in this dataset. NRC calls may reference AFFF usage in the ?Material Involved? or ?Incident Description? fields.

UST FINDER: UST Finder Database

EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories . UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

UST FINDER RELEASE: UST Finder Releases Database

US EPA's UST Finder data is a national composite of leaking underground storage tanks. This data contains information about, and locations of, leaking underground storage tanks. Data was collected from state sources and standardized into a national profile by EPA's Office of Underground Storage Tanks, Office of Research and Development, and the Association of State and Territorial Solid Waste Management Officials.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on private school locations in the United States.

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Elevation:	235 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	19020321 AYER, MA
Version Date:	2021

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

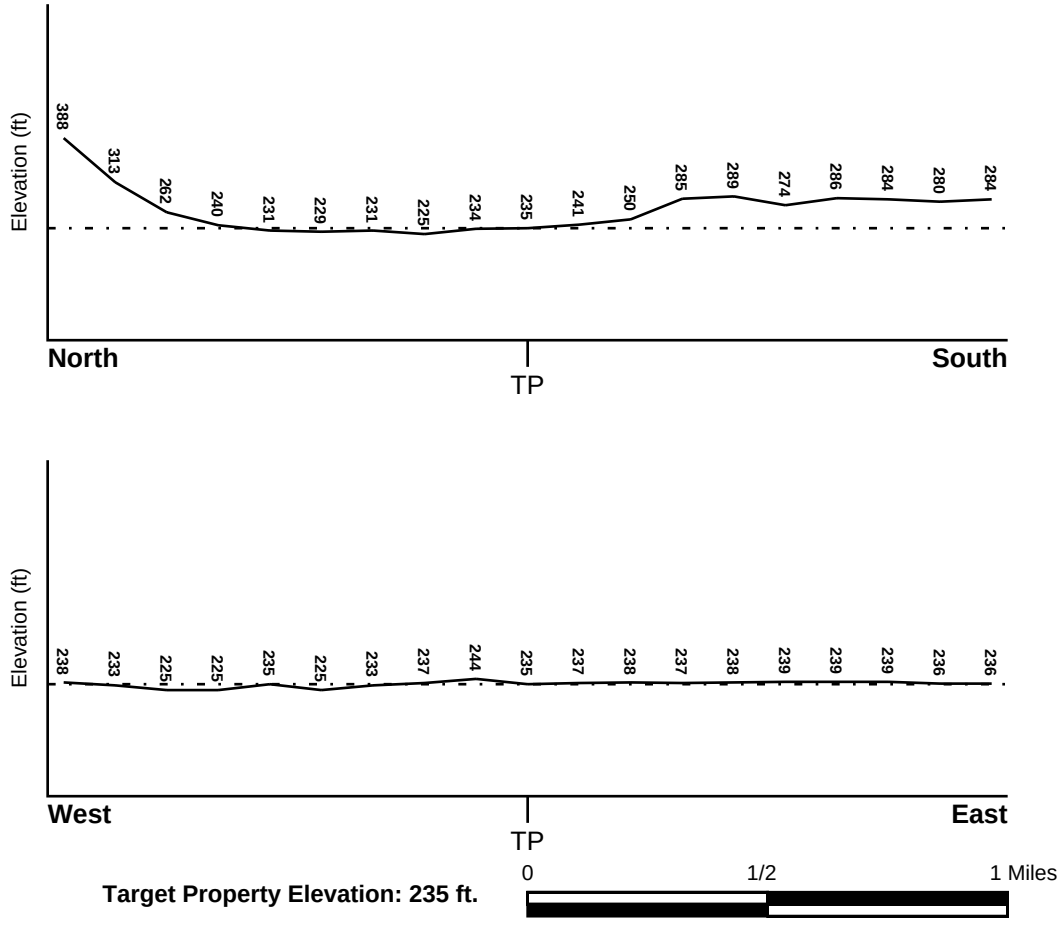
TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General North

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES



Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
25027C0316E	FEMA FIRM Flood data

Additional Panels in search area:	FEMA Source Type
25017C0208E	FEMA FIRM Flood data
25017C0204E	FEMA FIRM Flood data
25027C0312E	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
AYER	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW
Not Reported		

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era:	Paleozoic
System:	Ordovian
Series:	Lower Paleozoic granitic rocks

GEOLOGIC AGE IDENTIFICATION

Category: Plutonic and Intrusive Rocks

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name:	HINCKLEY
Soil Surface Texture:	loamy sand
Hydrologic Group:	Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.
Soil Drainage Class:	Excessively. Soils have very high and high hydraulic conductivity and low water holding capacity. Depth to water table is more than 6 feet.

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel:	LOW
Depth to Bedrock Min:	> 60 inches
Depth to Bedrock Max:	> 60 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
	Boundary			Classification			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)
1	0 inches	7 inches	loamy sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 20.00 Min: 6.00	Max: 6.00 Min: 3.60
2	7 inches	15 inches	gravelly - loamy sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 20.00 Min: 6.00	Max: 6.00 Min: 3.60
3	15 inches	65 inches	stratified	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Clean Sands, Poorly graded sand.	Max: 20.00 Min: 20.00	Max: 6.00 Min: 3.60

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: very stony - fine sandy loam
mucky-peat
very stony - sandy loam
fine sandy loam

Surficial Soil Types: very stony - fine sandy loam
mucky-peat
very stony - sandy loam
fine sandy loam

Shallow Soil Types: No Other Soil Types

Deeper Soil Types: sand
gravelly - loamy sand
loamy sand
mucky-peat
unweathered bedrock
sandy loam

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: MassDEP
Telephone: 617-292-5907

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Massachusetts Geographic Information System (MassGIS) Datalayers
Source: Executive Office of Environmental Affairs
Telephone:

Public Water Supply Database

Telephone:
The Public Water Supply datalayer contains the locations of public community surface and groundwater supply sources and public non-community supply sources as defined in 310 CMR 22.00.

Areas of Critical Environmental Concern

Telephone:
The Areas of Critical Environmental Concern (ACEC) datalayer shows the location of areas that have been designated ACECs by the Secretary of Environmental Affairs. ACEC designation requires greater environmental review of certain kinds of proposed development under state jurisdiction within the ACEC boundaries. The ACEC Program is administered by the Department of Environmental Management (DEM) on behalf of the Secretary of Environmental Affairs. The Massachusetts Coastal Zone Management (MCZM) Office managed the original Coastal ACEC Program from 1978 to 1993, and continues to play a key role in monitoring coastal ACECs. Procedures for ACEC designation and the general policies governing the effects of designation are contained in the ACEC regulations (301 CMR 12.00). The ACEC datalayer has been compiled by MCZM and DEM and includes both coastal and inland areas.

EPA Designated Sole Source Aquifers

Telephone:
The Sole Source Aquifer datalayer was compiled by the Department of Environmental Protection (DEP) Division of Water Supply (DWS). Seven Sole Source Aquifers have been designated by the US Environmental Protection Agency (EPA) for Massachusetts. A Sole Source Aquifer (SSA) is an aquifer designated by US EPA as the sole or principal source of drinking water for a given aquifer service area; that is, an aquifer which is needed to supply 50% or more of the drinking water for that area and for which there are no reasonably available alternative sources should that aquifer become contaminated. The aquifers were defined by an EPA hydrogeologist.

Aquifers

Telephone:
MassGIS produced an aquifer datalayer composed of 20 individual panels, generally based on the boundaries of the major drainage basins. Areas of high and medium yield were mapped. This datalayer includes polygon attribute coding to help in the identification of areas in which cleanup of hazardous waste sites must meet drinking water standards, as defined in the Massachusetts Contingency Plan (MCP) (310 CMR 40.00000).

Non-Potential Drinking Water Source Areas

Telephone:
Non-Potential Drinking Water Source Areas (NPDWSA) are regulatory in nature representing one of many considerations used in determining the standards to which ground water must be cleaned in the event of a release of oil or hazardous material. NPDWSAs are not based on existing water quality and do not indicate poor ambient conditions.

DEP Approved Zone IIs

Telephone:
The Department of Environmental Protection (DEP) approved Zone IIs datalayer was compiled by the DEP Division of Water Supply (DWS). The database contains 281 approved Zone IIs statewide. As stated in 310 CMR 22.02, a Zone II is 'that area of an aquifer which contributes water to a well under the most severe pumping and recharge conditions that can be realistically anticipated (180 days of pumping at safe yield, with no recharge from precipitation.) It is bounded by the groundwater divides which result from pumping the well and by the contact of the aquifer with less permeable materials such as till or bedrock. In some cases, streams or lakes may act as recharge boundaries. In all cases, Zone IIs shall extend up gradient to its point of intersection with prevailing hydrogeologic boundaries (a groundwater flow divide, a contact with till or bedrock, or a recharge boundary).' These data are used in association with the Public Water Supplies datalayer. The following describes certain unique features of this association.\n - Any proposed new well which will pump at least 100,000 gallons per day must have a Zone II delineation completed and approved by DEP prior to the well coming on line. \n- Additionally, a new source may not be on-line yet, but other, older wells may fall within its Zone II boundary.\n - Further, existing wells must have a Zone II delineated as a condition of receiving a water withdrawal permit under the Water Management Act.

OTHER STATE DATABASE INFORMATION

RADON

State Database: MA Radon
Source: Department of Health
Telephone: 413-586-7525
Radon Test Results

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

OTHER

Airport Landing Facilities: Private and public use landing facilities
Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater
Source: Department of Commerce, National Oceanic and Atmospheric Administration

Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary faultlines, prepared in 1975 by the United State Geological Survey

Contact: Lauren Brown

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Cooperstown Environmental were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available business directory data at approximately five year intervals.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.

NOTICE OF INTENT

Filed Under the Massachusetts Wetlands Protection Act
and the Town of Ayer Wetlands Protection Bylaw (Chapter 300 of the Town's General Bylaws)

for

Construction of a two Multi-Family (Duplex) Residential Dwellings within the 100' Buffer Zone to a Bordering Vegetated Wetland

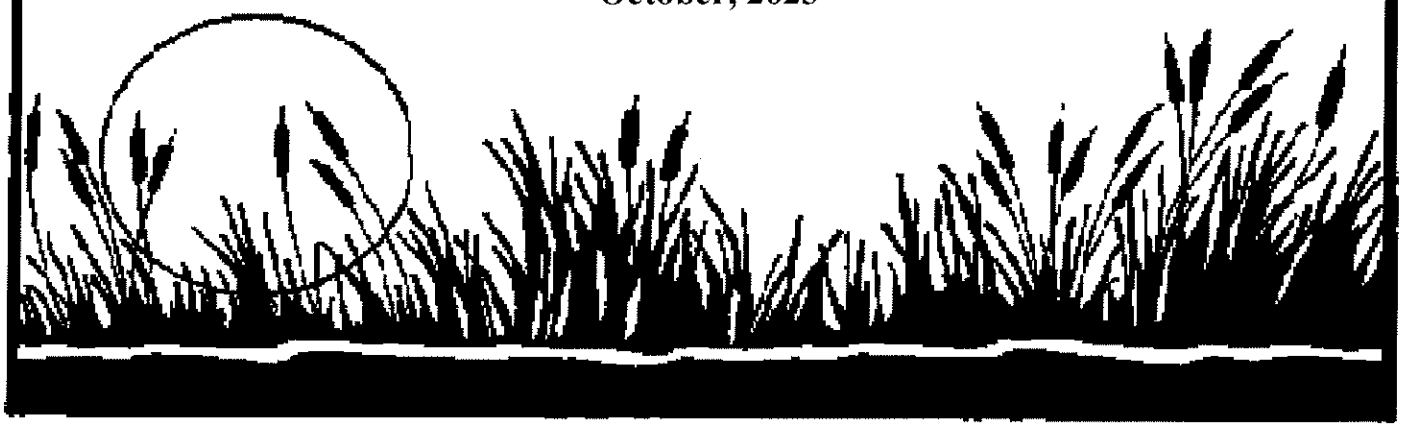
Located at

Lot 1 - Sandy Pond Road &
Lot 2 - Snake Hill Road
Ayer, MA
(Assessor's Map 29, Parcel 1)
(2.86 AC.)

APPLICANT/OWNER
North County Developers, LLC
D.E.R.A. Project Number 34325

REPRESENTATIVE
Brandon Ducharme
David E. Ross Associates, Inc.
Civil Engineers, Land Surveyors
& Environmental Consultants
P. O. Box 795
Harvard, MA 01451

October, 2023



Massachusetts Department of Environmental Protection
Bureau of Resource Protection - Wetlands

WPA Form 3 – Notice of Intent

Massachusetts Wetlands Protection Act M.G.L. c. 131, §40

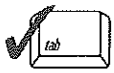
Provided by MassDEP:

MassDEP File Number

Document Transaction Number

Ayer
City/Town

Important: When filling out forms on the computer, use only the tab key to move your cursor - do not use the return key.



Note: Before completing this form consult your local Conservation Commission regarding any municipal bylaw or ordinance.

A. General Information

1. Project Location (**Note:** electronic filers will click on button to locate project site):

71 Sandy Pond Road (a. Street Address) | Ayer (b. City/Town) | 01432 (c. Zip Code)

Latitude and Longitude: 42.5589 (d. Latitude) | -71.5587 (e. Longitude)

29 (f. Assessors Map/Plat Number) | 1 (g. Parcel /Lot Number)

2. Applicant:

Brent (a. First Name) | Routhier (b. Last Name)

North Country Developers, LLC (c. Organization)

186 Littleton Road (d. Street Address)

Ayer (e. City/Town) | MA (f. State) | 01432 (g. Zip Code)

(978) 423-1961 (h. Phone Number) | (i. Fax Number) | bcrouthiersons@gmail.com (j. Email Address)

3. Property owner (required if different from applicant): ☐ Check if more than one owner

(a. First Name) | (b. Last Name)

(c. Organization)

(d. Street Address)

(e. City/Town) | (f. State) | (g. Zip Code)

(h. Phone Number) | (i. Fax Number) | (j. Email address)

4. Representative (if any):

Brandon (a. First Name) | Ducharme (b. Last Name)

David E. Ross Associates, Inc. (c. Company)

PO Box 795 (d. Street Address)

Harvard (e. City/Town) | MA (f. State) | 01451 (g. Zip Code)

978-772-6232 (h. Phone Number) | 978-772-6258 (i. Fax Number) | bducharme@davideross.com (j. Email address)

5. Total WPA Fee Paid (from NOI Wetland Fee Transmittal Form):

$2,100.00 (a. Total Fee Paid) | $1,037.50 (b. State Fee Paid) | $1,062.50 (c. City/Town Fee Paid)

A. General Information (continued)

6. General Project Description:

Construction of a two Multi-Family (duplex) dwellings in a Buffer Zone to a BVW.

7a. Project Type Checklist: (Limited Project Types see Section A. 7b.)

1. ☐ Single Family Home
2. ☒ Residential Subdivision
3. ☐ Commercial/Industrial
4. ☐ Dock/Pier
5. ☐ Utilities
6. ☐ Coastal engineering Structure
7. ☐ Agriculture (e.g., cranberries, forestry)
8. ☐ Transportation
9. ☐ Other

7b. Is any portion of the proposed activity eligible to be treated as a limited project (including Ecological Restoration Limited Project) subject to 310 CMR 10.24 (coastal) or 310 CMR 10.53 (inland)?

1. ☐ Yes ☒ No

If yes, describe which limited project applies to this project. (See 310 CMR 10.24 and 10.53 for a complete list and description of limited project types)

2. Limited Project Type

If the proposed activity is eligible to be treated as an Ecological Restoration Limited Project (310 CMR10.24(8), 310 CMR 10.53(4)), complete and attach Appendix A: Ecological Restoration Limited Project Checklist and Signed Certification.

8. Property recorded at the Registry of Deeds for:

a. County	b. Certificate # (if registered land)
Middlesex South	
c. Book	d. Page Number
81572	347

B. Buffer Zone & Resource Area Impacts (temporary & permanent)

1. ☒ Buffer Zone Only – Check if the project is located only in the Buffer Zone of a Bordering Vegetated Wetland, Inland Bank, or Coastal Resource Area.
2. ☐ Inland Resource Areas (see 310 CMR 10.54-10.58; if not applicable, go to Section B.3, Coastal Resource Areas).

Check all that apply below. Attach narrative and any supporting documentation describing how the project will meet all performance standards for each of the resource areas altered, including standards requiring consideration of alternative project design or location.

B. Buffer Zone & Resource Area Impacts (temporary & permanent) (cont'd)

For all projects affecting other Resource Areas, please attach a narrative explaining how the resource area was delineated.

Resource Area	Size of Proposed Alteration	Proposed Replacement (if any)
a. ☐ Bank	1. linear feet	2. linear feet
b. ☐ Bordering Vegetated Wetland	1. square feet	2. square feet
c. ☐ Land Under Waterbodies and Waterways	1. square feet 3. cubic yards dredged	2. square feet

Resource Area	Size of Proposed Alteration	Proposed Replacement (if any)
d. ☐ Bordering Land Subject to Flooding	1. square feet 3. cubic feet of flood storage lost	2. square feet 4. cubic feet replaced
e. ☐ Isolated Land Subject to Flooding	1. square feet 2. cubic feet of flood storage lost	3. cubic feet replaced
f. ☒ Riverfront Area	1. Name of Waterway (if available) - **specify coastal or inland**	

2. Width of Riverfront Area (check one):

☐ 25 ft. - Designated Densely Developed Areas only

☐ 100 ft. - New agricultural projects only

☒ 200 ft. - All other projects

3. Total area of Riverfront Area on the site of the proposed project: _____ square feet

4. Proposed alteration of the Riverfront Area:

a. total square feet _____ b. square feet within 100 ft. _____ c. square feet between 100 ft. and 200 ft. _____

5. Has an alternatives analysis been done and is it attached to this NOI? ☐ Yes ☐ No

6. Was the lot where the activity is proposed created prior to August 1, 1996? ☐ Yes ☐ No

3. ☐ Coastal Resource Areas: (See 310 CMR 10.25-10.35)

Note: for coastal riverfront areas, please complete **Section B.2.f.** above.

B. Buffer Zone & Resource Area Impacts (temporary & permanent) (cont'd)

Check all that apply below. Attach narrative and supporting documentation describing how the project will meet all performance standards for each of the resource areas altered, including standards requiring consideration of alternative project design or location.

Online Users: Include your document transaction number (provided on your receipt page) with all supplementary information you submit to the Department.

Resource Area	Size of Proposed Alteration	Proposed Replacement (if any)
a. ☐ Designated Port Areas	Indicate size under Land Under the Ocean, below	
b. ☐ Land Under the Ocean	1. square feet 2. cubic yards dredged	
c. ☐ Barrier Beach	Indicate size under Coastal Beaches and/or Coastal Dunes below	
d. ☐ Coastal Beaches	1. square feet	2. cubic yards beach nourishment
e. ☐ Coastal Dunes	1. square feet	2. cubic yards dune nourishment

	Size of Proposed Alteration	Proposed Replacement (if any)
f. ☐ Coastal Banks	1. linear feet	
g. ☐ Rocky Intertidal Shores	1. square feet	
h. ☐ Salt Marshes	1. square feet	2. sq ft restoration, rehab., creation
i. ☐ Land Under Salt Ponds	1. square feet 2. cubic yards dredged	
j. ☐ Land Containing Shellfish	1. square feet	
k. ☐ Fish Runs	Indicate size under Coastal Banks, inland Bank, Land Under the Ocean, and/or inland Land Under Waterbodies and Waterways, above 1. cubic yards dredged	
l. ☐ Land Subject to Coastal Storm Flowage	1. square feet	

4. ☐ Restoration/Enhancement
If the project is for the purpose of restoring or enhancing a wetland resource area in addition to the square footage that has been entered in Section B.2.b or B.3.h above, please enter the additional amount here.

a. square feet of BVW _____ b. square feet of Salt Marsh _____

5. ☐ Project Involves Stream Crossings

a. number of new stream crossings _____ b. number of replacement stream crossings _____

C. Other Applicable Standards and Requirements

☐ This is a proposal for an Ecological Restoration Limited Project. Skip Section C and complete Appendix A: Ecological Restoration Limited Project Checklists – Required Actions (310 CMR 10.11).

Streamlined Massachusetts Endangered Species Act/Wetlands Protection Act Review

1. Is any portion of the proposed project located in **Estimated Habitat of Rare Wildlife** as indicated on the most recent Estimated Habitat Map of State-Listed Rare Wetland Wildlife published by the Natural Heritage and Endangered Species Program (NHESP)? To view habitat maps, see the *Massachusetts Natural Heritage Atlas* or go to http://maps.massgis.state.ma.us/PRI_EST_HAB/viewer.htm.

   a. ☐ Yes ☒ No **If yes, include proof of mailing or hand delivery of NOI to:**

   Natural Heritage and Endangered Species Program
   Division of Fisheries and Wildlife
   1 Rabbit Hill Road
   Westborough, MA 01581

   Current MassGIS
   b. Date of map

   If *yes*, the project is also subject to Massachusetts Endangered Species Act (MESA) review (321 CMR 10.18). To qualify for a streamlined, 30-day, MESA/Wetlands Protection Act review, please complete Section C.1.c, and include requested materials with this Notice of Intent (NOI); *OR* complete Section C.2.f, if applicable. *If MESA supplemental information is not included with the NOI, by completing Section 1 of this form, the NHESP will require a separate MESA filing which may take up to 90 days to review (unless noted exceptions in Section 2 apply, see below).*

   c. Submit Supplemental Information for Endangered Species Review*

      1. ☐ Percentage/acreage of property to be altered:

         (a) within wetland Resource Area _____ percentage/acreage

         (b) outside Resource Area _____ percentage/acreage

      2. ☐ Assessor's Map or right-of-way plan of site

2. ☐ Project plans for entire project site, including wetland resource areas and areas outside of wetlands jurisdiction, showing existing and proposed conditions, existing and proposed tree/vegetation clearing line, and clearly demarcated limits of work **

   (a) ☐ Project description (including description of impacts outside of wetland resource area & buffer zone)

   (b) ☐ Photographs representative of the site

---

* Some projects **not** in Estimated Habitat may be located in Priority Habitat, and require NHESP review (see http://www.mass.gov/eea/agencies/dfg/dfw/natural-heritage/regulatory-review/). Priority Habitat includes habitat for state-listed plants and strictly upland species not protected by the Wetlands Protection Act.

** MESA projects may not be segmented (321 CMR 10.16). The applicant must disclose full development plans even if such plans are not required as part of the Notice of Intent process.

C. Other Applicable Standards and Requirements (cont'd)

(c) ☐ MESA filing fee (fee information available at http://www.mass.gov/dfwele/dfw/nhesp/regulatory_review/mesa/mesa_fee_schedule.htm). Make check payable to "Commonwealth of Massachusetts - NHESP" and ***mail to NHESP*** at above address

*Projects altering **10 or more acres** of land, also submit:*

(d) ☐ Vegetation cover type map of site

(e) ☐ Project plans showing Priority & Estimated Habitat boundaries

(f) OR Check One of the Following

1. ☐ Project is exempt from MESA review.
Attach applicant letter indicating which MESA exemption applies. (See 321 CMR 10.14, http://www.mass.gov/dfwele/dfw/nhesp/regulatory_review/mesa/mesa_exemptions.htm; the NOI must still be sent to NHESP if the project is within estimated habitat pursuant to 310 CMR 10.37 and 10.59.)

2. ☐ Separate MESA review ongoing. a. NHESP Tracking # b. Date submitted to NHESP

3. ☐ Separate MESA review completed.
Include copy of NHESP "no Take" determination or valid Conservation & Management Permit with approved plan.

3. For coastal projects only, is any portion of the proposed project located below the mean high water line or in a fish run?

a. ☒ Not applicable – project is in inland resource area only b. ☐ Yes ☐ No

If yes, include proof of mailing, hand delivery, or electronic delivery of NOI to either:

South Shore - Cohasset to Rhode Island border, and the Cape & Islands:

Division of Marine Fisheries -
Southeast Marine Fisheries Station
Attn: Environmental Reviewer
1213 Purchase Street – 3rd Floor
New Bedford, MA 02740-6694
Email: DMF.EnvReview-South@state.ma.us

North Shore - Hull to New Hampshire border:

Division of Marine Fisheries -
North Shore Office
Attn: Environmental Reviewer
30 Emerson Avenue
Gloucester, MA 01930
Email: DMF.EnvReview-North@state.ma.us

Also if yes, the project may require a Chapter 91 license. For coastal towns in the Northeast Region, please contact MassDEP's Boston Office. For coastal towns in the Southeast Region, please contact MassDEP's Southeast Regional Office.

C. Other Applicable Standards and Requirements (cont'd)

Online Users: Include your document transaction number (provided on your receipt page) with all supplementary information you submit to the Department.

4. Is any portion of the proposed project within an Area of Critical Environmental Concern (ACEC)?

   a. ☐ Yes ☒ No If yes, provide name of ACEC (see instructions to WPA Form 3 or MassDEP Website for ACEC locations). **Note:** electronic filers click on Website.

   b. ACEC

5. Is any portion of the proposed project within an area designated as an Outstanding Resource Water (ORW) as designated in the Massachusetts Surface Water Quality Standards, 314 CMR 4.00?

   a. ☐ Yes ☒ No

6. Is any portion of the site subject to a Wetlands Restriction Order under the Inland Wetlands Restriction Act (M.G.L. c. 131, § 40A) or the Coastal Wetlands Restriction Act (M.G.L. c. 130, § 105)?

   a. ☐ Yes ☒ No

7. Is this project subject to provisions of the MassDEP Stormwater Management Standards?

   a. ☐ Yes. Attach a copy of the Stormwater Report as required by the Stormwater Management Standards per 310 CMR 10.05(6)(k)-(q) and check if:

      1. ☐ Applying for Low Impact Development (LID) site design credits (as described in Stormwater Management Handbook Vol. 2, Chapter 3)

      2. ☐ A portion of the site constitutes redevelopment

      3. ☐ Proprietary BMPs are included in the Stormwater Management System.

   b. ☒ No. Check why the project is exempt:

      1. ☐ Single-family house

      2. ☐ Emergency road repair

      3. ☒ Small Residential Subdivision (less than or equal to 4 single-family houses or less than or equal to 4 units in multi-family housing project) with no discharge to Critical Areas.

D. Additional Information

☐ This is a proposal for an Ecological Restoration Limited Project. Skip Section D and complete Appendix A: Ecological Restoration Notice of Intent – Minimum Required Documents (310 CMR 10.12).

Applicants must include the following with this Notice of Intent (NOI). See instructions for details.

Online Users: Attach the document transaction number (provided on your receipt page) for any of the following information you submit to the Department.

1. ☒ USGS or other map of the area (along with a narrative description, if necessary) containing sufficient information for the Conservation Commission and the Department to locate the site. (Electronic filers may omit this item.)

2. ☒ Plans identifying the location of proposed activities (including activities proposed to serve as a Bordering Vegetated Wetland [BVW] replication area or other mitigating measure) relative to the boundaries of each affected resource area.

D. Additional Information (cont'd)

3. ☒ Identify the method for BVW and other resource area boundary delineations (MassDEP BVW Field Data Form(s), Determination of Applicability, Order of Resource Area Delineation, etc.), and attach documentation of the methodology.

4. ☒ List the titles and dates for all plans and other materials submitted with this NOI.

Site Plan, designed for North Country Developers LLC (Plan #L-14703)
a. Plan Title

David E. Ross Associates, Inc.
b. Prepared By

Daniel B. Wolfe, P.E.
c. Signed and Stamped by

September, 2023
d. Final Revision Date

1=20'
e. Scale

f. Additional Plan or Document Title

g. Date

5. ☐ If there is more than one property owner, please attach a list of these property owners not listed on this form.

6. ☐ Attach proof of mailing for Natural Heritage and Endangered Species Program, if needed.

7. ☐ Attach proof of mailing for Massachusetts Division of Marine Fisheries, if needed.

8. ☐ Attach NOI Wetland Fee Transmittal Form

9. ☐ Attach Stormwater Report, if needed.

E. Fees

1. ☐ Fee Exempt: No filing fee shall be assessed for projects of any city, town, county, or district of the Commonwealth, federally recognized Indian tribe housing authority, municipal housing authority, or the Massachusetts Bay Transportation Authority.

Applicants must submit the following information (in addition to pages 1 and 2 of the NOI Wetland Fee Transmittal Form) to confirm fee payment:

3136
2. Municipal Check Number

9/20/2023
3. Check date

3135
4. State Check Number

9/20/2023
5. Check date

North Country Developers, LLC
6. Payor name on check: First Name

7. Payor name on check: Last Name

F. Signatures and Submittal Requirements

I hereby certify under the penalties of perjury that the foregoing Notice of Intent and accompanying plans, documents, and supporting data are true and complete to the best of my knowledge. I understand that the Conservation Commission will place notification of this Notice in a local newspaper at the expense of the applicant in accordance with the wetlands regulations, 310 CMR 10.05(5)(a).

I further certify under penalties of perjury that all abutters were notified of this application, pursuant to the requirements of M.G.L. c. 131, § 40. Notice must be made by Certificate of Mailing or in writing by hand delivery or certified mail (return receipt requested) to all abutters within 100 feet of the property line of the project location.

(AGENT)	9/26/23
1. Signature of Applicant	2. Date
3. Signature of Property Owner (if different)	4. Date
5. Signature of Representative (if any)	9/26/23 6. Date

For Conservation Commission:
Two copies of the completed Notice of Intent (Form 3), including supporting plans and documents, two copies of the NOI Wetland Fee Transmittal Form, and the city/town fee payment, to the Conservation Commission by certified mail or hand delivery.

For MassDEP:
One copy of the completed Notice of Intent (Form 3), including supporting plans and documents, one copy of the NOI Wetland Fee Transmittal Form, and a **copy** of the state fee payment to the MassDEP Regional Office (see Instructions) by certified mail or hand delivery.

Other:
If the applicant has checked the "yes" box in any part of Section C, Item 3, above, refer to that section and the Instructions for additional submittal requirements.

The original and copies must be sent simultaneously. Failure by the applicant to send copies in a timely manner may result in dismissal of the Notice of Intent.

B. Fees

To calculate filing fees, refer to the category fee list and examples in the instructions for filling out WPA Form 3 (Notice of Intent).

Fee should be calculated using the following process & worksheet. ***Please see Instructions before filling out worksheet.***

Step 1/Type of Activity: Describe each type of activity that will occur in wetland resource area and buffer zone.

Step 2/Number of Activities: Identify the number of each type of activity.

Step 3/Individual Activity Fee: Identify each activity fee from the six project categories listed in the instructions.

Step 4/Subtotal Activity Fee: Multiply the number of activities (identified in Step 2) times the fee per category (identified in Step 3) to reach a subtotal fee amount. Note: If any of these activities are in a Riverfront Area in addition to another Resource Area or the Buffer Zone, the fee per activity should be multiplied by 1.5 and then added to the subtotal amount.

Step 5/Total Project Fee: Determine the total project fee by adding the subtotal amounts from Step 4.

Step 6/Fee Payments: To calculate the state share of the fee, divide the total fee in half and subtract $12.50. To calculate the city/town share of the fee, divide the total fee in half and add $12.50.

Massachusetts Department of Environmental Protection
Bureau of Resource Protection - Wetlands

NOI Wetland Fee Transmittal Form

Massachusetts Wetlands Protection Act M.G.L. c. 131, §40

B. Fees (continued)

Step 1/Type of Activity	Step 2/Number of Activities	Step 3/Individual Activity Fee	Step 4/Subtotal Activity Fee
3 b.) Each building for development	2	$1,050.00	$2,100.00

Step 5/Total Project Fee: $2,100.00

Step 6/Fee Payments:

Total Project Fee:	$2,100.00 (a. Total Fee from Step 5)
State share of filing Fee:	$1,037.50 (b. 1/2 Total Fee **less** $12.50)
City/Town share of filling Fee:	$1,062.50 (c. 1/2 Total Fee **plus** $12.50)

C. Submittal Requirements

a.) Complete pages 1 and 2 and send with a check or money order for the state share of the fee, payable to the Commonwealth of Massachusetts.

Department of Environmental Protection
Box 4062
Boston, MA 02211

b.) **To the Conservation Commission:** Send the Notice of Intent or Abbreviated Notice of Intent; a **copy** of this form; and the city/town fee payment.

To MassDEP Regional Office (see Instructions): Send a copy of the Notice of Intent or Abbreviated Notice of Intent; a **copy** of this form; and a **copy** of the state fee payment. (E-filers of Notices of Intent may submit these electronically.)

WPA Attachment A.

Massachusetts Wetlands Protection Act M.G.L. c. 131 s. 40

Proposed Project Description

PROJECT LOCATION

71 Sandy Pond Road (Lots 1 & 2)
Ayer, MA
(Assessor's Map 29, Parcel 1)

APPLICANT/OWNER

North Country Developers, LLC
186 Littleton Road
Ayer, MA 01432

SITE DESCRIPTION

The project site consists of a 2.86 acre residential house lot with frontage along Sandy Pond Road and Snake Hill Road in Ayer Massachusetts. The site is located within a A-2 Residential Zoning district and currently has a 3-bedroom single-family home, paved parking area and on-site sewage disposal system. The site topography is generally flat, sloping slightly towards Snake Hill Road, Sandy Pond Road and the wetland located along the westerly property line. In addition to the wetland along the westerly side of the property, there is also a wetland associated with a pond located across the street, east of Snake Hill Road.

The wetland area along the westerly side of the property, associated with an intermittent stream that exits a culvert under Sandy Pond Road, is identified by wetland delineation flags A-1 through A-11. This wetland is considered a Bordering Vegetated Wetland as defined by 310 CMR 10.55. There is a 100' Buffer Zone that extends landward from wetland line that encompasses a portion of the existing house and paved parking area. The wetland area east of Snake Hill Road is a vegetated wetland associated with a pond. This wetland would also be considered a Bordering Vegetated Wetland as defined by 310 CMR 10.55. There is a 100' Buffer Zone that extends landward, across Snake Hill Road and encompasses a portion of the existing paved parking area.

PROJECT DESCRIPTION

The proposed projects consists of the construction of two (2) mulit-family residential (duplex) units, to be located on separate lots, with portions of the proposed work located within the 100-foot Buffer Zones. Prior to construction, the existing house and paved parking area will be razed and removed from the site. Part of the site preparation will include the removal of other man-made debris located at the site. Any existing tanks or components associated with the septic system will be pumped, crushed and replaced with clean fill.

The proposed duplex for Lot 1 will have street frontage along Sandy Pond Road. The proposed duplex will have a two-car garage, one for each unit, with vehicular access from Sandy Pond Road. The access for the driveway will be located within the existing curb cut provided for the existing dwelling located at the site. The utilities, such as sewer, water and gas will be provided from the municipal services located within the right of way of Sandy Pond Road.

The proposed duplex for Lot 2 will have street frontage along Snake Hill Road. The proposed duplex will have a two-car garage, one for each unit, with vehicular access from Snake Hill Road. The utilities for sewer and gas will be provided by the municipal services located within the right of way of Sandy Pond Road. An easement is provided over Lot 1 to allow connection to the municipal service within the right of way of Sandy Pond Road. The proposed duplex shall be connected to watermain located within Snake Hill Road.

Massachusetts Department of Environmental Protection

Bureau of Resource Protection – Wetlands

WPA Attachment A.

Massachusetts Wetlands Protection Act M.G.L. c. 131 s. 40

Proposed Project Description

Work is proposed within the 50-foot "no disturbance zone", however, this work is associated with the removal and restoration of pavement that is currently located at the site. All of the proposed work is located within previously developed areas of the site. The proposed re-development will result in less impervious area at site as shown in the following table.

Summary of Impervious Area:

Description:	Existing (square feet):	Proposed (square feet):	Difference (square feet):
Area with 50-Foot "No Disturbance Zone"	1,072	0	*-1,072*
Area within 100-Foot Buffer Zone	7,177	3,424	*-3,753*
Total Area on-site	13,892	5,150	*-8,742*

EROSION CONTROL/SILTATION BARRIRER

Erosion and sediment controls have been incorporated in the plan with the objective of retaining sediment on site, filtering and reducing storm water discharge and protecting wetland and undisturbed areas. A siltation barrier consisting of a straw wattles will be installed up gradient from Wetland Resource Areas that may receive runoff from the construction activities. The siltation barrier will be installed prior to the commencement of work at the limit of the proposed disturbance. The proposed siltation barrier shall remain in place and be maintained until all disturbed areas have become stable and with the approval of the Conservation Commission.

WETLAND DELINEATION DATA

By Brandon Ducharme, David E. Ross Associates, Inc., April 13, 2023.

Bordering Vegetated Wetlands delineate with Blue flags as shown on Site Plan (Plan L-14703):
Blue Flags: A1 to A11 - edge of Bordering Vegetated Wetland (west side of property)
B1 to B7 – edge of Bordering Vegetated Westland (east of Snake Hill Road);

Notification to Abutters
Under the MASSACHUSETTS WETLANDS PROTECTION ACT AND AYER WETLANDS PROTECTION BYLAW

[CMR 310 10.00 & Chapter 300 of the Town's General Bylaws]

In accordance with the second paragraph of Massachusetts General Laws Chapter 131, Section 40, you are hereby notified of the following:

Applicant: North Country Developers, LLC
Municipality: Ayer

Project Description (as it applies under the Massachusetts Wetlands Protections Act and the Ayer Wetlands Protection Bylaw): The contruction of two (Lots 1 & 2) multi-family residential (duplex) units within the 100 foot Buffer Zone to a Bordering Vegetated Wetland .

Address of Lot where project is proposed:
71 Sandy Pond Road – Ayer, Mass.
(Assessor's Map 29 – Parcel 1)

For more information, call: 978-772-8220 Ext. 143

The applicant has filed a Notice of Intent with the Ayer Conservation Commission and is seeking permission to remove, fill, dredge or alter an Area Subject to Protection under the Wetlands Protection Act (Massachusetts General Law Chapter 131, Section 40).

Copies of the above referenced filing may be examined at the Conservation Commission Office, Town Hall, 1 Main Street, Ayer, MA, between the hours of 10:00 a.m. and 1:00 p.m., Wednesdays and Fridays. Please schedule an appointment by calling (978) 772-8249.

Copies of the Notice of Intent may be obtained from the Applicants Representative by calling this telephone number: **(978) 772-6232** between 8:00 and 3:30 - Monday through Friday, ($20.00 copying cost).

Information regarding the date, time, and place of the hearing may be obtained from the Ayer Conservation Office by calling 978-772-8249 between the hours of 9:30 a.m. and 1:30 p.m., Wednesdays and Fridays.

Note: Notice of the public hearing, including its date, time, and place, will be published at least five (5) business days prior to the hearing date in *Nashoba Valley Voice* newspaper. Such notice will also be posted at the Ayer Town Hall no fewer than forty-eight (48) hours in advance of the meeting.

Subject: RE: Public Records Request, 71 Sandy Hill Road, Ayer

Good morning Carly,

For water and sewer:

- 71 Sandy Pond Road was never connected to Town sewer.
  - However, there is Town sewer available in the street for the property to connect into.
  - The DPW does not have records of the old on-site septic system.
- 71 Sandy Pond Road was connected to Town water, but DPW does not have a sketch showing the connection.

DPW does not have records of dumping/fires/demolition.

Good afternoon Lauren,

We do not have any records that pertain to a 21E for 71 Sandy Pond Road. The only records on file are a couple of Smoke Detector and Brush Burning Permits for that location.

Best,

Lt. Robert Bozek

Good afternoon Jan,

Does the Fire Department have any records for 71 Sandy Hill Road in Ayer? If so, may I schedule a time to come in a review those files? Thank you.

Sincerely,

Lauren Brown

NOTES

THE EXISTING CONDITIONS AND TOPOGRAPHIC SURVEY WAS COMPLETED BY DAVID E. ROSS ASSOCIATES INC. IN MAY OF 2023.

WETLAND DELINEATION PERFORMED BY DAVID E. ROSS ASSOCIATES, INC. IN APRIL OF 2023.

TOPOGRAPHY SHOWN IS BASED ON NORTH AMERICAN VERTICAL DATUM OF 1983 (N.A.V.D 83)

THE PLAN DEPICTS ONLY THOSE FEATURES THAT WERE VISUALLY APPARENT ON THE DATE OF TOPOGRAPHY AND THE ABSENCE OF SUBSURFACE STRUCTURES, UTILITIES, ETC. IS NOT INTENDED OR IMPLIED.

CONSTRUCTION NOTES:

1. UNLESS OTHERWISE SHOWN OR SPECIFIED, ALL WORK, MATERIALS AND APPURTENANCES SHALL BE IN ACCORDANCE WITH THE MASSACHUSETTS HIGHWAY DEPARTMENT CONSTRUCTION STANDARDS AND SPECIFICATIONS, MUNICIPAL SPECIFICATIONS, AND INDIVIDUAL UTILITY COMPANY REQUIREMENTS.
2. ALL UTILITY WORK, MATERIALS AND APPURTENANCES SHALL ALSO BE IN ACCORDANCE WITH THE MANUFACTURERS' RECOMMENDATIONS.
3. CONTRACTOR SHALL CALL 1-888-DIG-SAFE (1-888-344-7233) AND OBTAIN A DIG SAFE NUMBER A MINIMUM OF 72 HOURS IN ADVANCE OF SUBSURFACE EXPLORATION OR INITIATION OF CONSTRUCTION, AS REQUIRED BY LAW.
4. THE CONTRACTOR SHALL VERIFY THE LOCATION AND ELEVATION OF UTILITIES PRIOR TO CONSTRUCTION. THE CONTRACTOR SHALL IDENTIFY ALL DOMESTIC WATER SERVICE LINES TO ENSURE A MINIMUM SEPARATION OF TEN FEET FROM ANY PROPOSED SEWER LINES. THE CONTRACTOR SHALL NOTIFY THE OWNER OF ANY CONDITIONS FOUND WHICH PROHIBIT THE PLACEMENT OF UTILITIES AS INDICATED.
5. PRIOR TO THE START OF CONSTRUCTION, THE EXISTING OFF-SITE AREAS, AND LOCAL STREET CONDITIONS (DRAINAGE, PAVEMENT, VEGETATION) SHOULD BE INSPECTED AND THEIR CONDITIONS NOTED AND/OR PHOTOGRAPHED.
6. PRIOR TO CONSTRUCTION OF THE PROPOSED SEWER CONNECTION, THE CONTRACTOR SHALL FIELD VERIFY THE LOCATION AND ELEVATION OF THE BURIED SEWER MANHOLE (STA. 27+21), GAS MAIN AND WATER MAIN. THE DESIGN ENGINEER SHALL BE NOTIFIED OF ANY DISCREPANCIES IMMEDIATELY.
7. SEWER SERVICE INSTALLATIONS AND CONNECTION SHALL BE CARRIED OUT IN ACCORDANCE WITH THE REQUIREMENTS OF THE AYER SEWER RULES AND REGULATIONS (JUNE 2021).
8. THE BUILDING SEWER SHALL BE CONSTRUCTED FROM THE DOWNSTREAM END UP.
9. ANY PORTION OF THE EXISTING SYSTEM ENCOUNTERED DURING CONSTRUCTION SHALL BE PUMPED OUT, REMOVED AND BACKFILLED WITH CLEAN GRAVEL FILL.
10. THE EXISTING IMPERVIOUS PAVED AREA AT THE SITE TO BE REMOVED PRIOR TO CONSTRUCTION. ALL RESTORED AREAS, NOT COVERED WITH THE PROPOSED BUILDINGS AND DRIVEWAY, SHALL BE LOAMED AND SEEDED.

Denied because:

b. ☐ the proposed work cannot be conditioned to meet the performance standards set forth in the wetland regulations. Therefore, work on this project may not go forward unless and until a new Notice of Intent is submitted which provides measures which are adequate to protect the interests of the Act, and a final Order of Conditions is issued. **A description of the performance standards which the proposed work cannot meet is attached to this Order.**

c. ☐ the information submitted by the applicant is not sufficient to describe the site, the work, or the effect of the work on the interests identified in the Wetlands Protection Act. Therefore, work on this project may not go forward unless and until a revised Notice of Intent is submitted which provides sufficient information and includes measures which are adequate to protect the Act's interests, and a final Order of Conditions is issued. **A description of the specific information which is lacking and why it is necessary is attached to this Order as per 310 CMR 10.05(6)(c).**

3. ☒ Buffer Zone Impacts: Shortest distance between limit of project disturbance and the wetland resource area specified in 310 CMR 10.02(1)(a) — a. linear feet

B. Findings (cont.)

* **#23.** If the project is for the purpose of restoring or enhancing a wetland resource area in addition to the square footage that has been entered in Section B.5.c (BVW) or B.17.c (Salt Marsh) above, please enter the additional amount here.

23. ☐ Restoration/Enhancement *:

a. square feet of BVW | b. square feet of salt marsh

24. ☐ Stream Crossing(s):

a. number of new stream crossings | b. number of replacement stream crossings

C. General Conditions Under Massachusetts Wetlands Protection Act

The following conditions are only applicable to Approved projects.

1. Failure to comply with all conditions stated herein, and with all related statutes and other regulatory measures, shall be deemed cause to revoke or modify this Order.
2. The Order does not grant any property rights or any exclusive privileges; it does not authorize any injury to private property or invasion of private rights.
3. This Order does not relieve the permittee or any other person of the necessity of complying with all other applicable federal, state, or local statutes, ordinances, bylaws, or regulations.
4. The work authorized hereunder shall be completed within three years from the date of this Order unless either of the following apply:
   a. The work is a maintenance dredging project as provided for in the Act; or
   b. The time for completion has been extended to a specified date more than three years, but less than five years, from the date of issuance. If this Order is intended to be valid for more than three years, the extension date and the special circumstances warranting the extended time period are set forth as a special condition in this Order.
   c. If the work is for a Test Project, this Order of Conditions shall be valid for no more than one year.
5. This Order may be extended by the issuing authority for one or more periods of up to three years each upon application to the issuing authority at least 30 days prior to the expiration date of the Order. An Order of Conditions for a Test Project may be extended for one additional year only upon written application by the applicant, subject to the provisions of 310 CMR 10.05(11)(f).
6. If this Order constitutes an Amended Order of Conditions, this Amended Order of Conditions does not extend the issuance date of the original Final Order of Conditions and the Order will expire on 11/13/2026 unless extended in writing by the Department.
7. Any fill used in connection with this project shall be clean fill. Any fill shall contain no trash, refuse, rubbish, or debris, including but not limited to lumber, bricks, plaster, wire, lath, paper, cardboard, pipe, tires, ashes, refrigerators, motor vehicles, or parts of any of the foregoing.

C. General Conditions Under Massachusetts Wetlands Protection Act

8. This Order is not final until all administrative appeal periods from this Order have elapsed, or if such an appeal has been taken, until all proceedings before the Department have been completed.

9. No work shall be undertaken until the Order has become final and then has been recorded in the Registry of Deeds or the Land Court for the district in which the land is located, within the chain of title of the affected property. In the case of recorded land, the Final Order shall also be noted in the Registry's Grantor Index under the name of the owner of the land upon which the proposed work is to be done. In the case of the registered land, the Final Order shall also be noted on the Land Court Certificate of Title of the owner of the land upon which the proposed work is done. The recording information shall be submitted to the Conservation Commission on the form at the end of this Order, which form must be stamped by the Registry of Deeds, prior to the commencement of work.

10. A sign shall be displayed at the site not less then two square feet or more than three square feet in size bearing the words,

"Massachusetts Department of Environmental Protection" [or, "MassDEP"]

"File Number 100-0486 "

11. Where the Department of Environmental Protection is requested to issue a Superseding Order, the Conservation Commission shall be a party to all agency proceedings and hearings before MassDEP.

12. Upon completion of the work described herein, the applicant shall submit a Request for Certificate of Compliance (WPA Form 8A) to the Conservation Commission.

13. The work shall conform to the plans and special conditions referenced in this order.

14. Any change to the plans identified in Condition #13 above shall require the applicant to inquire of the Conservation Commission in writing whether the change is significant enough to require the filing of a new Notice of Intent.

15. The Agent or members of the Conservation Commission and the Department of Environmental Protection shall have the right to enter and inspect the area subject to this Order at reasonable hours to evaluate compliance with the conditions stated in this Order, and may require the submittal of any data deemed necessary by the Conservation Commission or Department for that evaluation.

16. This Order of Conditions shall apply to any successor in interest or successor in control of the property subject to this Order and to any contractor or other person performing work conditioned by this Order.

C. General Conditions Under Massachusetts Wetlands Protection Act (cont.)

17. Prior to the start of work, and if the project involves work adjacent to a Bordering Vegetated Wetland, the boundary of the wetland in the vicinity of the proposed work area shall be marked by wooden stakes or flagging. Once in place, the wetland boundary markers shall be maintained until a Certificate of Compliance has been issued by the Conservation Commission.

18. All sedimentation barriers shall be maintained in good repair until all disturbed areas have been fully stabilized with vegetation or other means. At no time shall sediments be deposited in a wetland or water body. During construction, the applicant or his/her designee shall inspect the erosion controls on a daily basis and shall remove accumulated sediments as needed. The applicant shall immediately control any erosion problems that occur at the site and shall also immediately notify the Conservation Commission, which reserves the right to require additional erosion and/or damage prevention controls it may deem necessary. Sedimentation barriers shall serve as the limit of work unless another limit of work line has been approved by this Order.

19. The work associated with this Order (the "Project")
    (1) ☐ is subject to the Massachusetts Stormwater Standards
    (2) ☒ is NOT subject to the Massachusetts Stormwater Standards

    If the work is subject to the Stormwater Standards, then the project is subject to the following conditions:

    a) All work, including site preparation, land disturbance, construction and redevelopment, shall be implemented in accordance with the construction period pollution prevention and erosion and sedimentation control plan and, if applicable, the Stormwater Pollution Prevention Plan required by the National Pollution Discharge Elimination System Construction General Permit as required by Stormwater Condition 8. Construction period erosion, sedimentation and pollution control measures and best management practices (BMPs) shall remain in place until the site is fully stabilized.

    b) No stormwater runoff may be discharged to the post-construction stormwater BMPs unless and until a Registered Professional Engineer provides a Certification that:

    i. all construction period BMPs have been removed or will be removed by a date certain specified in the Certification. For any construction period BMPs intended to be converted to post construction operation for stormwater attenuation, recharge, and/or treatment, the conversion is allowed by the MassDEP Stormwater Handbook BMP specifications and that the BMP has been properly cleaned or prepared for post construction operation, including removal of all construction period sediment trapped in inlet and outlet control structures;

    ii. as-built final construction BMP plans are included, signed and stamped by a Registered Professional Engineer, certifying the site is fully stabilized;

    iii. any illicit discharges to the stormwater management system have been removed, as per the requirements of Stormwater Standard 10;

C. General Conditions Under Massachusetts Wetlands Protection Act (cont.)

iv. all post-construction stormwater BMPs are installed in accordance with the plans (including all planting plans) approved by the issuing authority, and have been inspected to ensure that they are not damaged and that they are in proper working condition;

v. any vegetation associated with post-construction BMPs is suitably established to withstand erosion.

c) The landowner is responsible for BMP maintenance until the issuing authority is notified that another party has legally assumed responsibility for BMP maintenance. Prior to requesting a Certificate of Compliance, or Partial Certificate of Compliance, the responsible party (defined in General Condition 18(e)) shall execute and submit to the issuing authority an Operation and Maintenance Compliance Statement ("O&M Statement) for the Stormwater BMPs identifying the party responsible for implementing the stormwater BMP Operation and Maintenance Plan ("O&M Plan") and certifying the following:

i.) the O&M Plan is complete and will be implemented upon receipt of the Certificate of Compliance, and

ii.) the future responsible parties shall be notified in writing of their ongoing legal responsibility to operate and maintain the stormwater management BMPs and implement the Stormwater Pollution Prevention Plan.

d) Post-construction pollution prevention and source control shall be implemented in accordance with the long-term pollution prevention plan section of the approved Stormwater Report and, if applicable, the Stormwater Pollution Prevention Plan required by the National Pollution Discharge Elimination System Multi-Sector General Permit.

e) Unless and until another party accepts responsibility, the landowner, or owner of any drainage easement, assumes responsibility for maintaining each BMP. To overcome this presumption, the landowner of the property must submit to the issuing authority a legally binding agreement of record, acceptable to the issuing authority, evidencing that another entity has accepted responsibility for maintaining the BMP, and that the proposed responsible party shall be treated as a permittee for purposes of implementing the requirements of Conditions 18(f) through 18(k) with respect to that BMP. Any failure of the proposed responsible party to implement the requirements of Conditions 18(f) through 18(k) with respect to that BMP shall be a violation of the Order of Conditions or Certificate of Compliance. In the case of stormwater BMPs that are serving more than one lot, the legally binding agreement shall also identify the lots that will be serviced by the stormwater BMPs. A plan and easement deed that grants the responsible party access to perform the required operation and maintenance must be submitted along with the legally binding agreement.

f) The responsible party shall operate and maintain all stormwater BMPs in accordance with the design plans, the O&M Plan, and the requirements of the Massachusetts Stormwater Handbook.

C. General Conditions Under Massachusetts Wetlands Protection Act (cont.)

g) The responsible party shall:
1. Maintain an operation and maintenance log for the last three (3) consecutive calendar years of inspections, repairs, maintenance and/or replacement of the stormwater management system or any part thereof, and disposal (for disposal the log shall indicate the type of material and the disposal location);
2. Make the maintenance log available to MassDEP and the Conservation Commission ("Commission") upon request; and
3. Allow members and agents of the MassDEP and the Commission to enter and inspect the site to evaluate and ensure that the responsible party is in compliance with the requirements for each BMP established in the O&M Plan approved by the issuing authority.

h) All sediment or other contaminants removed from stormwater BMPs shall be disposed of in accordance with all applicable federal, state, and local laws and regulations.

i) Illicit discharges to the stormwater management system as defined in 310 CMR 10.04 are prohibited.

j) The stormwater management system approved in the Order of Conditions shall not be changed without the prior written approval of the issuing authority.

k) Areas designated as qualifying pervious areas for the purpose of the Low Impact Site Design Credit (as defined in the MassDEP Stormwater Handbook, Volume 3, Chapter 1, Low Impact Development Site Design Credits) shall not be altered without the prior written approval of the issuing authority.

l) Access for maintenance, repair, and/or replacement of BMPs shall not be withheld. Any fencing constructed around stormwater BMPs shall include access gates and shall be at least six inches above grade to allow for wildlife passage.

Special Conditions (if you need more space for additional conditions, please attach a text document):

See Attachment A - Special Conditions

20. For Test Projects subject to 310 CMR 10.05(11), the applicant shall also implement the monitoring plan and the restoration plan submitted with the Notice of Intent. If the conservation commission or Department determines that the Test Project threatens the public health, safety or the environment, the applicant shall implement the removal plan submitted with the Notice of Intent or modify the project as directed by the conservation commission or the Department.

D. Findings Under Municipal Wetlands Bylaw or Ordinance

1. Is a municipal wetlands bylaw or ordinance applicable? ☒ Yes ☐ No

2. The Ayer hereby finds (check one that applies):
   Conservation Commission

   a. ☐ that the proposed work cannot be conditioned to meet the standards set forth in a municipal ordinance or bylaw, specifically:

   _____ (1. Municipal Ordinance or Bylaw) _____ (2. Citation)

   Therefore, work on this project may not go forward unless and until a revised Notice of Intent is submitted which provides measures which are adequate to meet these standards, and a final Order of Conditions is issued.

   b. ☐ that the following additional conditions are necessary to comply with a municipal ordinance or bylaw:

   Ayer Wetlands Bylaw (1. Municipal Ordinance or Bylaw) Article XXVI (2. Citation)

3. The Commission orders that all work shall be performed in accordance with the following conditions and with the Notice of Intent referenced above. To the extent that the following conditions modify or differ from the plans, specifications, or other proposals submitted with the Notice of Intent, the conditions shall control.

   The special conditions relating to municipal ordinance or bylaw are as follows (if you need more space for additional conditions, attach a text document):

F. Appeals

The applicant, the owner, any person aggrieved by this Order, any owner of land abutting the land subject to this Order, or any ten residents of the city or town in which such land is located, are hereby notified of their right to request the appropriate MassDEP Regional Office to issue a Superseding Order of Conditions. The request must be made by certified mail or hand delivery to the Department, with the appropriate filing fee and a completed Request for Departmental Action Fee Transmittal Form, as provided in 310 CMR 10.03(7) within ten business days from the date of issuance of this Order. A copy of the request shall at the same time be sent by certified mail or hand delivery to the Conservation Commission and to the applicant, if he/she is not the appellant.

Any appellants seeking to appeal the Department's Superseding Order associated with this appeal will be required to demonstrate prior participation in the review of this project. Previous participation in the permit proceeding means the submission of written information to the Conservation Commission prior to the close of the public hearing, requesting a Superseding Order, or providing written information to the Department prior to issuance of a Superseding Order.

The request shall state clearly and concisely the objections to the Order which is being appealed and how the Order does not contribute to the protection of the interests identified in the Massachusetts Wetlands Protection Act (M.G.L. c. 131, § 40), and is inconsistent with the wetlands regulations (310 CMR 10.00). To the extent that the Order is based on a municipal ordinance or bylaw, and not on the Massachusetts Wetlands Protection Act or regulations, the Department has no appellate jurisdiction.

ATTACHMENT A
SPECIAL CONDITIONS
Order of Conditions
North Country Developers, LLC, 71 Sandy Pond Road, Ayer, MA
DEP File # 100-0486

FINDINGS:

Under the Order of Conditions ("the Order") issued under MassDEP File Number 100-0486 to DMG Investments ("the Applicant"), the Ayer Conservation Commission ("the Commission") hereby finds that in addition to the preceding General Conditions #1-20, Special Conditions listed herewith are necessary to achieve Performance Standards set forth in the Wetlands Protection Act ("WPA," MGL Chapter 131, Section 40) as codified in 310 CMR 10.00 ("the WPA Regulations") as well as the Town of Ayer Wetlands Protection Bylaw ("the Bylaw," Article XXVI) and local regulations ("Bylaw Regulations"). "Resource Areas" are enumerated under 310 CMR 10.02(1) and Bylaw Article XXVI, Section 2A. Under the Bylaw, the Buffer Zone is considered to be a Resource Area (Section 3A).

The project involves two proposed duplex dwelling units on two lots. The property is located at the corner of Sandy Pond Road and Snake Hill Road and is a total of 2.86 acres. The existing property will be divided into two separate lots.

The Commission orders that all work should be performed in accordance with said General and Special Conditions, the referenced Notice of Intent, and all other relevant documents listed below in Special Condition 2.

Any violation of these Conditions is considered a breach of the WPA and/or the Bylaw, which may make the Applicant subject to an Enforcement Order, a Cease & Desist Order, and/or a fine from MassDEP and/or this Commission. Under Article LIII (Enforcement) of the Bylaws of the Town of Ayer, the Commission is considered an enforcement officer for the Act and the Bylaw. Article LIII specifies the fine to be up to three hundred dollars per violation, with each day a violation exists constituting a separate offense.

In the Conditions below, all references to Resource Area/s shall be assumed to include Wetlands, Buffer Zones to Wetlands (100 ft.), and Riverfront Areas (200 ft.) subject to the jurisdiction of the Commission, unless otherwise specified.

ADMINISTRATIVE CONDITIONS

1. **All work must be in compliance with DEP General Conditions 1-20 as well as all Special Conditions from the Ayer Conservation Commission herein, as stated below:**

2. The work shall conform to the following approved Plans and key documents unless otherwise specified in this Order. All documents will be submitted to the Conservation Agent in both paper and electronic formats:

WPA Form 3/Notice of Intent:	DEP File # 100-0486
Submitted on behalf of:	North Country Developers, LLC
Property Owner:	Brent Routhier, North Country Developers, LLC
Project Location:	71 Sandy Pond Road Ayer, MA 01432
Prepared by:	David E. Ross, Associates Inc.
Stamped by:	Danile Wolfe
Site Plan:	
Final Revision Date/Sheet Name:	Site Plan / November 9, 2023

3. This Order, including these Special Conditions, shall apply to the Applicant or any successor(s) in interest or successor(s) in control of the property subject to this Order, including all current or future tenants, and shall survive until the issuance and recording of the Certificate of Compliance. Some conditions may be designated as "perpetual" in the COC and therefore survive this Order.

4. The Commission shall be notified in writing within 30 days of all transfers of title of any portion of property where activity has occurred under this Order, and that takes place prior to the issuance and recording of a Certificate of Compliance.

5. The approved wetland boundaries pertaining to this Order are only valid for the specific project associated with DEP # 100-0486 and not for any future projects.

6. Proof of recording of this Order at the Middlesex South Registry of Deeds must be submitted to the Commission prior to the commencement of any work within areas jurisdictional under the Act and/or the Bylaw.

7. This Order authorizes **only** the activity described on the approved Plans and documents referenced in this Order.

8. The Applicant and the Applicant's designated representatives (including but not limited to site supervisors, contractors, subcontractors, and engineers) are responsible for the project's completion in accordance with the approved Plans and this Order. **To ensure compliance, a copy of this Order and the approved plans shall be kept on site at all times while activities regulated by this Order are being performed.**

9. Any **changes** to the Plans approved under this Order, including those resulting from review requirements by other Town boards/departments or from unforeseen site conditions, and which may or will alter an area subject to protection under the Act and/or the Bylaw, must be submitted to the Agent or the Commission in writing for approval prior to implementation. The Agent/Commission will then determine if such alterations to the Plans may be treated as a Field Change, as an Amendment to this Order requiring a Public Hearing, or if such alterations are substantial enough to require the filing of a new Notice of Intent. Any errors found in the Plans or information submitted by the Applicant shall be considered as changes.

10. Members and agents of the Commission shall have the right to enter and inspect the premises at reasonable times, in reasonable intervals, with reasonable notification to the Site Supervisor, to evaluate compliance with the Conditions, up to such a time that the Certificate of Compliance is issued. The Commission may require the submittal of additional data (such as work or data logs, purchase receipts, or product specifications) reasonably deemed necessary by the Commission to determine whether the project is in compliance with the Conditions. Potential violations of perpetual Conditions shall not grant the Commission or its agents' passage over private property.

PRE-CONSTRUCTION CONDITIONS.

11. Throughout the duration of the project and until the issuance of the Certificate of Compliance, wetland boundaries shall be clearly marked with flags/stakes so that said areas are clearly distinguishable at all times. Such markers are to be repaired or replaced as necessary.

12. The Applicant or designated representatives must provide the Commission with the names, addresses, and telephone numbers (both business and 24-hour emergency numbers) of the person(s) responsible for compliance with this Order. The Commission shall also be notified in writing of any changes or updates to this information.

13. Signage to be exhibited on site, visible from the street, shall include the 2-3 square foot sign required to display the MassDEP File Number (General Condition 10, WPA Form 5) as well as any such additional signage as required by the Commission. All such signage shall remain in place until the issuance of a Certificate of Compliance.

14. The Applicant and/or designated representative(s) shall hold a pre-construction meeting with the Agent –jointly with other Town departments if appropriate – prior to the start of any work to ensure this Order is fully understood by all parties. The Applicant shall also submit in writing for the Commission's approval the following items as checked:
    a. Sequence of construction activities and time table;
    b. Method of Procedures (MOP) detailing:

i. a clearing plan showing areas to be cleared and areas to be left in a natural state;
ii. protocols and contingencies for protecting Resource Areas during construction;
iii. response plan for encountering unforeseen conditions or emergencies;
iv. protocols for reporting problems to relevant entities, including the Agent;
v. a set of photographs depicting the project site in pre-activity condition.

15. Following the pre-construction meeting, erosion controls shall be installed with minimal disturbance of shrubs and herbaceous plants. **These controls must be inspected and approved by the Agent prior to the commencement of any work on site. The Commission must be notified at least 7 days prior to the commencement of work for such inspection.**

EROSION AND SEDIMENTATION CONTROLS

16. The erosion and deposition of soils, silt, and sediments into Wetland, Riverfront and Buffer Zone Resource Areas beyond the approved LOW shall be prevented at all times by effective control measures as specified in the referenced Notice of Intent and Plans, and in accordance with conditions noted below:

17. Prior to construction activity on site, the LOW shall be clearly marked or survey-located, beyond which no work shall occur. Erosion controls generally signify the LOW but the Commission may also require staked orange snow fencing to be installed in some areas as well. Workers shall be informed that no use of machinery, storage of machinery or materials, stockpiling of soil, or construction activity is to occur beyond this line at any time.

18. Temporary erosion control methods, as approved by the Commission, shall consist of any combination of silt fencing, staked haybales, compost filter sock, or straw wattles. Again, their installation must be inspected by the Conservation Agent prior to work beginning. Controls should comply with MassDEP's Complete Erosion and Sedimentation Control Guidelines.

19. The Commission or its Agent may require the Applicant to employ additional erosion controls as they reasonably deem necessary or where conditions indicate that existing control methods are insufficient to protect the Resource Areas.

20. While construction is active on a project site, controls shall be inspected regularly to ensure they remain in good working order. Controls must also be inspected following storm events to check for signs of erosion, wash-out, rills, or other damage caused by flowing water. Controls should also be inspected in the spring following a significant warming period when snow/ice has been present on the ground. Upon the discovery of any failure of erosion control measures resulting in the deposition of run-off materials

into protected Resource Areas beyond the LOW, the incident shall be immediately reported to the Commission at (978)-772-8200 ext. 143 and to concom@ayer.ma.us.

21. All accumulated sediment shall be removed from the face of the erosion control barriers using hand tools (e.g. shovels, rakes, wheelbarrows) whenever the level of sediment is within six (6) inches of the top of the barrier.

22. Any unforeseen accumulation of sedimentation that takes place beyond the erosion control barriers/LOW shall be removed immediately using hand tools. The cause of the failure shall be immediately addressed as soon as reasonably practical.

23. Soil, sediment, debris, or other material removed during maintenance or repair of erosion control barriers, or remediation of erosion damage, shall be disposed of outside of the Resource Area/LOW.

24. For the duration of the project, the Applicant shall maintain a reserve of the approved erosion control products for emergency repairs. For large projects, this shall be equal to at least 15% of the maximum extent of erosion control materials used on site.

25. Erosion controls and wetland flags must remain in place until all disturbed surfaces have been permanently stabilized and a Certificate of Compliance has been issued by the Commission. Biodegradable material may be broken up and spread on site within the LOW, but not within any Resource Areas or Conservation Easement. Non-biodegradable materials, such as plastic twine, must be removed and discarded off-site. All erosion control material must be dismantled and/or removed after the issuance of the Certificate of Compliance.

GENERAL SITE CONDITIONS

26. Exposed soils within the Buffer Zone shall be stabilized (either temporarily or permanently) as soon as practical following disturbance (e.g. excavation and grading). This includes slopes and other disturbed areas not subject to further construction activities. Temporary stabilization shall consist of seeding with annual oats, ryegrass, or other approved species, or through the use of products such as erosion control blankets, geotextile fabrics, etc.

27. The use of vehicles or equipment (anything motorized or that may potentially leak harmful materials such as fuels or lubricants) shall be operated, parked, and maintained so as to minimize impact to Resource Areas and limit alterations to those areas clearly identified on the Plans. Pumps, generators, or other stationary equipment containing fuel, oil, or other potential contaminants, may not be stored or operated within Resource Areas without written approval of the Commission or its Agent. If permitted, equipment shall be contained within or on an impervious barrier, to be inspected daily for any sign of leakage. No underground storage of fuel or other hazardous substances is permitted in areas within the jurisdiction of the Commission.

28. No vehicles or equipment are to enter or cross a Resource Area or Buffer Zone outside of the LOW for this Order (e.g. temporary access road, construction mats) unless the location of disturbance is marked on the Plans referenced in this Order and submitted with a plan for restoration of the Resource Area/Buffer Zone disturbance.

29. There shall be no pumping of water from wetlands without written permission from the Commission.

30. No oil, calcium chloride, or other salt shall be used within Resource Areas or Buffer Zones during any construction phase for the control of dust.

31. Cement trucks shall not be washed out in Resource Areas or deposited into any drainage system. Any deposit of excess cement or concrete products shall be immediately removed.

32. There shall be no dumping of leaves, grass clippings, brush, Christmas trees, or other debris into the wetland Resource Areas.

33. The use of deicing chemicals such as sodium chloride is prohibited on driveways located with Wetland Resource Areas and Buffer Zones.

34. No hazardous waste shall be introduced or discharged into or toward Resource Areas or into the sewage/stormwater systems in such a manner as to impact Resource Areas unless previously identified and approved by the Commission, Board of Health, MassDEP, and/or the United States Environmental Protection Agency.

35. The removal and remediation of hazardous waste, from an area subject to protection under the Act and/or the Bylaw, shall be conducted under the direction of the Massachusetts Department of Environmental Protection, Environmental Protection Agency, or other applicable state or federal agencies.

36. Any material placed in Resource Areas beyond the LOW by the Applicant without express authorization under this Order shall be removed by the Applicant upon demand by the Commission or its Agent.

37. From the start of construction to the end of the first year after the Certificate of Compliance is issued the Conservation Agent will inspect the property after any plowable snow.

GRADING, LANDSCAPING, SLOPES

38. Where possible, site grading and construction shall be scheduled to avoid periods of high surface water. Once begun, grading and construction shall continue in an expeditious manner to minimize the opportunity for erosion.

39. Grading shall be accomplished so that runoff is not directed onto the property of others, except as indicated on the approved Plans.

40. No proposed earthen embankment in the buffer zone shall have a slope steeper than 2:1 (horizontal: vertical) without prior written approval of the Commission.

SOILS, STOCKPILES, FILL, RIPRAP, TEMPORARY ROADS

41. All construction or landscaping materials, waste products, grubbed stumps, soil, slash, slurry pits, inorganic debris, etc. shall be stockpiled or deposited outside of all Resource Areas unless otherwise specified in this Order and shown on the approved Plans.

42. At no time shall debris or other material be buried or disposed of within the Buffer Zone other than that fill which is explicitly allowed by this Order and as shown on the referenced Plans.

43. Only crushed stone of uniform size or erosion control mats shall be used for temporary construction roadways.

44. Riprap material shall be clean and free of trash, tree stumps, roots, and other deleterious material.

STORMWATER MANAGEMENT / DEWATERING

45. Runoff shall be managed in accordance with the stormwater management plan developed for this project.

46. The storm drainage system, detention basins, compensatory flood storage areas, and wetland crossings shall be constructed to the extent practical as early in the project timeline as possible.

47. There shall be no direct discharge of stormwater runoff into streams or other Resource Areas. Runoff from the site shall be directed overland to maximize groundwater recharge and cleansing of the runoff through contact with natural soils and vegetation.

48. All existing and/or new catch basins and oil traps on streets adjacent to the project shall be protected by silt sacks to prevent sediment from entering the drainage system. Silt sacks shall be maintained and regularly cleaned of sediments until all areas associated with the work permitted by this Order have been permanently stabilized and the Commission and/or Agent have formally approved their removal.

49. Unless or until put into an easement to the Town of Ayer, the Applicant or designee shall maintain all elements of the drainage systems within any areas subject to the Commission's jurisdiction in order to avoid blockages and siltation which might cause

failure of the system. Vegetative cover shall also be maintained on-site to ensure the proper functioning of the drainage system. This Condition shall in no way impede the control of invasive species, should a conflict arise.

50. Any runoff resulting from washing of vehicles or equipment shall neither be directed to, nor dumped into, any on-site drainage system or Resource Area.

51. If necessary, dewatering activities shall be conducted as shown on the approved plans and shall be monitored daily to ensure that sediment-laden water is appropriately settled prior to discharge toward Resource Areas. No discharge of water is allowed directly into an area subject to jurisdiction under the Act or the Bylaw.

ONGOING MAINTENANCE

52. Whenever maintenance work within Resource Areas or that may impact Resource Areas is to be performed, the Commission shall be notified in writing in advance. This includes, but is not limited to, clearing sediment from a stream or drainage channel, replacing leach fields, repairing drains, road maintenance/repaving, and the cleaning or maintenance of stormwater/drainage structures. **This condition shall be noted in the Certificate of Compliance as a perpetual condition.**

CERTIFICATE OF COMPLIANCE

53. Upon completion of construction and final soil stabilization, or within one year of the issuance of an Occupancy Permit, the Applicant shall submit the following to the Commission in order to request a Certificate of Compliance (COC):
    a. A completed Request for a Certificate of Compliance (WPA Form 8A);
    b. A written statement from a Registered Professional Engineer certifying that the work has been completed in compliance with this Order, the Plans, and any approved revisions if applicable. Substantial deviations and their potential impact must be described in detail. If the work completed differs significantly from the work approved by the Commission, the Commission may require the Applicant to implement measures necessary to comply with this Order or seek an amended Order of Conditions.
    c. An 'As-Built' plan signed and stamped by a Registered Professional Engineer or Land Surveyor showing post-construction conditions within all jurisdictional areas under the scope of the project as permitted under this Order. The As-Built shall include at a minimum:
        i. all Resource Area boundaries (wetlands, buffer zones, riverfront) and regulatory setback areas taken from the approved Plans;
        ii. distances of any structures (buildings, septic system components, wells, utility lines, fences, retaining walls, roads/driveways, pools, etc.) to wetland Resource Areas and Buffer Zone or Riverfront lines;
        iii. line depicting the limitation of yard/lawn expansion without new review/approval by the Commission;

iv. the location of any required signage or boulders;
v. locations and elevations of all stormwater management conveyances, structures, basins, rain gardens, and other Best Management designs, including foundation drains and outlet pipes;
vi. wetland replication areas constructed under this Order and confirmed successful after two growing seasons;

d. Post-construction photographs for comparison with pre-construction photographs if required.
e. "No dumping/no disturb" signs shall be installed along the back/side of the property facing the wetlands, with a minimum of 4 signs per lot.
f. A minimum of at least 4 trees or 8 shrubs or mixture of the two; native species, shall be planted on each building lot. Conformation of success is requested at the end of each growing season for two seasons after planting.

Re: Bylaw violations

Dear Geoffrey,

Per our site meeting today (June 1,2021) and your request, I am extending the original agreed upon time frame for an additional two (2) weeks (June 15, 2021) to bring your property into compliance.

If your property is not in compliance with all town Bylaws by June 15, 2021, I will be forced to take all means available to me (fines/legal action) to bring your property into compliance.

Thank You.

If you have any questions, you may contact me at 978-772-8214, between the hours of 8 a.m. to 11 a.m. daily.

Re: Bylaw Violations

Dear Geoffrey,

You were notified on May 6, 2021, June 1, 2021, and August 24, 2021, that the property at 71 Sandy Pond Rd. is in violation of the Town Bylaws, as there has been no effort to bring the property into compliance this letter is to serve you (Geoffrey Clark) and the Estate of Mark Velardi formal notice that the Town has contacted KP/ LAW (legal counsel) to have the outstanding violations resolved through the Courts.

If you have any questions, you may contact me at 978-772-8214, between the hours of 8 a.m. to 11 a.m. daily.

Re: Bylaw violations

Dear Geoffrey,

It was brought to our attention there are multiple unregistered vehicles on your property. Please resolve this by relocating or discarding them from town property unless you can provide valid up-to-date registrations for each vehicle. Also, each dwelling in A-2 Residential Zone is only permitted one Class II commercial vehicle and it appears you store multiple of them as well, which means you do not meet compliance with:

I. STORAGE RESTRICTIONS:

A. Except as may be provided herein, not more than one (1) unregistered Motor Vehicle shall be placed, **stored** and kept on property, except in case of auto dealers holding a First or Second Class License or otherwise granted by Board of Selectmen.

B. All privately owned unregistered Motor Vehicles shall be **stored**, placed and kept on private property.

Please obtain compliance within 14 days (November 30th) of this notice. Thank you.

If you have any questions, you may contact me at 978-772-8214, between the hours of 8 a.m. to 11 a.m. daily.

Re: Bylaw violations

Dear Geoffrey,

This is your final notice before fines begin. There are still multiple unregistered vehicles on your property. Please resolve this by relocating or discarding them from town property unless you can provide valid up-to-date registrations for each vehicle. Also, each dwelling in A-2 Residential Zone is only permitted one Class II commercial vehicle and it appears you store multiple of them as well, which means you do not meet compliance with:

I. STORAGE RESTRICTIONS:

A. Except as may be provided herein, not more than one (1) unregistered Motor Vehicle shall be placed, **stored** and kept on property, except in case of auto dealers holding a First or Second Class License or otherwise granted by Board of Selectmen.

B. All privately owned unregistered Motor Vehicles shall be **stored**, placed and kept on private property.

VII. VIOLATIONS AND PENALTIES:

The enforcing authority shall give written notice of any violation of this By-Law to the person committing the violation. Thirty (30) days after receipt of such notice of violation, the person receiving the notice shall be liable to a penalty of not more than fifty dollars (50.00) for each separate offense. Each day of continuing violation shall constitute separate offense.

If you have any questions, you may contact me at 978-772-8214, between the hours of 8 a.m. to 11 a.m. daily.

Re: Bylaw violations

Dear Geoffrey,

This letter is to serve you formal notice that you are in violation of the Towns Bylaws.
Specifically, Article 36, Article 55 and Article 40 (Nuisance Bylaw) I have enclosed copies
for your review and have circled and underlined the sections of the Nuisance Bylaw that you are in violation of.
Please contact me within in 7 days (May 19, 2021) of receipt of this order, to discuss corrective action or I will be forced to take all means available to me, to have you bring your property into compliance.

Thank You.

If you have any questions, you may contact me at 978-772-8214, between the hours of 8 a.m. to 11 a.m. daily.

Mark Ferinian
93 Sandy Pond Road
Ayer,MA 01432

Dear Mr. Ferinian:

As the result of a complaint, an inspection was made of the above referenced property on 1/12/89 by Lynda M. Fogarty of this office. This inspection revealed trash and abandoned furniture littered throughout lot, abandoned truck also noted, thereby creating a health nuisance condition and violation of the following checked Massachusetts General Law(s):

( ) Chapter III, Section 122, a nuisance condition was found on the site which is deemed to be injurious to the public health. Such a condition must be destroyed or removed.

( ) 310 CMR 15.02(20), Title 5 of the State Environmental Code, a condition exists whereby sanitary sewage is allowed to discharge to the surface of the ground, gutter, roadway, etc.

( ) Chapter III, Section 125(A), a farm was found being operated in such a manner as to constitute a nuisance.

(X) Chapter III, Section 150(A), a site is being used as a private dumping ground without assignment of the local board of health.

( ) 105 CMR 410.000, Chapter 2 of the State Sanitary Code, a condition exists which causes the unit to be unfit for human habitation.

YOU ARE HEREBY ORDERED TO CORRECT THESE VIOLATIONS WITHIN 7 DAYS OF RECEIPT (OR POSTING) OF THIS ORDER.

You may request a hearing before the Board of Health by filing a written petition to the Board within seven days of the receipt of this order. At the hearing, you will be given an opportunity to be heard and to present witnesses and documentary evidence as to why this order should be modified or withdrawn. You may be represented by an attorney. You have the right to inspect and obtain copies of all relevant documents relating to this matter from the Nashoba Associated Boards of Health, 74 West Main Street, Ayer, Ma., 01432 from 8:00 AM to 4:00 PM, Monday thru Friday. Any adverse party has the right to appear at the hearing.

FAILURE TO COMPLY WITH THIS ORDER SHALL, UPON CONVICTION, RESULT IN FINES OF NOT LESS THAN 10 NOR MORE THAN 500 DOLLARS. EACH DAY'S FAILURE TO COMPLY CONSTITUTES A SEPARATE VIOLATION.

Very truly yours,

Lynda M. Fogarty RS.

September 24, 2009

Mr. Mark Velardi
71 Sandy Pond Road
Ayer, MA 01432

Dear Mr. Velardi,

It has been brought to the attention of the Ayer Board of Health that there are still chickens being kept on your property. Enclosed please find documentation from a Conservation Commission member stating that you are still keeping chickens on your property. On September 10, 2009, the Board's Health Agent confirmed this.

On June 9, 2009 a representative of yours came to our office and stated that you were giving the chickens away and no longer wanted to apply for a permit to keep chickens. At that point, I returned your check to him.

Enclosed please find the Ayer Board of Health's Keeping of Animal and Fowl Regulation and a permit application. If you plan on keeping chickens on your property, please fill out the permit application and return it to the Ayer Board of Health no later than **October 7, 2009**. Failure to apply for a permit by this date will result in a fine of one hundred dollars ($100.00) per day until the permit application is received as stated in Section 9 of the Keeping of Animal and Fowl Regulations.

If you would like to discuss this issue with the Board, please call this office to request time on the agenda. The Board's next meetings are Monday, September 28th and Monday, October 5th.

Please call with any questions.

Thank you,

Michelle Carlisle

Re: Violation of the Ayer Board of Health Regulations Governing the Keeping of Animals and Fowl

Dear Mr. Velardi,

It has come to the attention of the Ayer Board of Health that you are keeping chickens on your above referenced property without a permit.

Section 4: Permits, of the Ayer Board of Health Regulations Governing the Keeping of Animals and Fowl states in part, ***'A permit to keep one or more animals shall be required for anyone keeping one or more animals as defined in this regulation.'***

Section 9B: Enforcement, states in part, ***'Any owner or person in charge of a facility covered by these regulations who fails to comply with this regulation shall be subject to a fine of one hundred dollars ($100.00) each day or part thereof when a violation occurs.'***

This letter is to serve as formal notice that you are in violation of the Town of Ayer Board of Health Regulations Governing the Keeping of Animals and Fowl in that you are keeping chickens on your property without the proper permit.

You are hereby ordered to remove the chickens from your property or apply for a permit by Friday, October 30, 2009 or you will be issued a fine of $100.00 each day of the violation.

If you have any questions on this matter, please call the office during scheduled office hours. (Tuesday through Thursday 9:00am to 12:00pm).

You have the right to appeal this decision to the Ayer Board of Health. The next meeting is Monday, November 9, 2009.

Sincerely,

Margaret Kidder
Chair, Ayer Board of Health

Re: Violation of Board of Health Regulations Governing the Keeping of Animals and Fowl

Dear Mr. Velardi,

Pursuant to the Board of Health Regulations Governing the Keeping of Animals and Fowl Sections 4 and 9B, you are hereby in violation of these regulations by keeping chickens without a permit.

To date you have made no attempt to obtain the required permit to keep chickens on your property or to contact this office.

Pursuant to Section 9B, the fine is $100.00 each day or part thereof when a violation occurs. As of today, December 3, 2009, you have been in violation since 10/31/09 totaling 32 days. Therefore, you must pay $3,200.

Please make the check out to Ayer Board of Health and mail it to 1 Main St., Ayer, MA 01432.

You have the right to appeal this decision to the Ayer Board of Health. The next meeting is Monday, December 14, 2009.

Thank you,

Margaret Kidder

Re: Cease and Desist Order

Mr. Velardi,

On 29,Nov.,'07, I sent you a letter regarding the illegal construction of a storage building on your property and conducting a business at this location. (Copy of letter attached.)

To date you have made no attempt to obtain the required 'Special Permit' for the operation of a home based business. Further over the past months your intensity level appears to have increased.

Also, you have not obtained a building permit for the construction of your metal building, nor have you made any attempt to relocate the building so as to comply with local zoning requirements.

You are hereby ordered to comply with the zoning by-laws and obtain a building permit for the construction of the metal building no later than 20,Apr.,'09.

If you fail to comply with this enforcement order I will be forced to take further legal action and will seek all fines and penalties as prescribed by law.

Be advised that building code violations are subject to a fine of up to $1000/day, with each day an offense exists considered a separate violation.

You have the right to appeal this decision to the Ayer Zoning Board of Appeals.

Sincerely,

Gabriel J. Vellante Jr.
Building Commissioner/Zoning Enforcement Officer

Re: Zoning Enforcement Letter of 30,Nov.,'06
Second Notice

Mr. Velardi,

On 30,Nov.,'06 you were sent an enforcement letter regarding the construction of a metal storage building. The enforcement dealt with the fact that you constructed the building without obtaining a building permit, and the location was in violation of Zoning.

After receiving my letter we had an office meeting. At that time we discussed the compliance options which were available to you. You agreed to obtain the required permits and relocate the building.

To date you have not corrected the violations. Further, you have installed a storage container between the storage building and the road. This is also a violation, in that you failed to obtain a permit and have located it in the front yard.

This letter is to serve as formal notice the you are in violation of the 780 CMR 6th Edition and the town by-laws for both the metal storage building and the storage container.

You are hereby ordered to comply to the requirements of the Ayer Zoning By-laws and 780 CMR 6th Edition, no later than 01,Apr.,'07. If you fail to comply to this second notice, I will be forced to take legal action for compliance of the By-laws and 780 CMR.

Sincerely,

Gabriel J. Vellante Jr.
Building Commissioner/Zoning Enforcement Officer

Re: Metal Storage Building

Mr. Velardi,

It has come to my attention that you have constructed a metal storage building in the front yard at your above referenced property. A review of the town records does not indicate that any building permit was issued for this work.

780 CRM 6Th. Edition (Building Code) Section 110.3, #1 exempts from permitting the construction of temporary structures that ***do not exceed 120sf***. (Your typical garden shed). Your building is clearly greater than the 120sf exemption limitation, in that your structure is approximately the size of a one car garage, and therefore does not qualify for this exemption.

This letter is to serve as formal notice that you are in ***violation*** of the ***Building Code*** as follows:

- You have failed to file required documentation for the issuance of a ***Building Permit.***
- You have failed to pay the required permit fees to the ***Town***
- You have failed to obtain a ***Building Permit*** prior to the start of construction.
- You have failed to have required inspections performed.
- You have failed to obtain a ***Certificate of Occupancy*** prior to the use of the structure.

Further, you are in violation of the ***Town of Ayer Zoning By-laws***, in that the by-laws only allow accessory structures to be constructed either in the side or rear yards.

Since the construction of your building is in ***violation*** of the ***Building Code*** and the ***Town By-laws***, you are hereby ordered to ***remove this structure*** from the property, or obtain the proper Building Permit, and relocate the building so as to comply to the Town By-laws, no later than 14,Dec.,'06. You may also seek zoning relief in the form a variance from the ***Ayer Zoning Board of Appeals*** to locate the building in the front yard.

If you fail to comply to this ***Order***, I will begin legal action against you for compliance to the ***Building Code*** and ***By-laws.***

Be advised that ***Building Code*** violations are subject to a fine of up ***to $1000.00 per day***. Each day a violation exists is considered a separate offense.

You have the right to appeal this decision.

Sincerely,

Gabriel J. Vellante Jr.
Building Commissioner/Zoning Enforcement Officer

Re: Cease and Desist Order

7002 2410 0002 1645 0112

Mr. Velardi,

On 30,Nov.,'06 you were sent an enforcement letter regarding the construction of a metal storage building. The enforcement dealt with the fact that you constructed the building without obtaining a building permit, and the location was in violation of Zoning.

On 22,Mar.,'07 you were sent a Second Notice of this violation.

To date you have not made any attempt to correct this situation. Further you have installed a storage container on your front property line. This container is also in violation of the Town By-laws in that it is located in the front yard.

Also, you have dismantled vehicles in the yard. This is a violation of Article XXI Sect. 4 of the General By-laws of the Town of Ayer.

You are hereby ordered to correct the above referenced violations no later than noon 15, Dec.,'07. If you fail to comply with this order, I will be forced to begin legal action for compliance to 780 CMR (Building Code) and the town by-laws.

Further, it has also come to my attention that you are running a business from this property. Your property is located in the ***'A-2'*** residential zoning district. All home occupations located in a residential district are allowed only by a ***Special Permit*** issued by the ***Ayer Zoning Board of Appeals*** (ZBA). You are herby ordered to cease all business activities at this address until such time as you obtain a ***'Special Permit'*** from the ZBA.

You have the right to appeal this decision to the Ayer Zoning Board of Appeals.

Sincerely,

Gabriel J. Vellante Jr.
Building Commissioner/Zoning Enforcement Officer
