

To Our Valued Patients,

Steward Medical Group is pleased to be scheduling first dose COVID-19 vaccine appointments for eligible Massachusetts residents. Vaccine appointments are based on the supply our clinics receive from the government.

We are currently scheduling first dose vaccine appointments at the following locations: Ayer, Brighton, Brockton, Dorchester, Methuen, Taunton, and Westwood. These locations have a limited supply of first dose vaccines and vaccines are by appointment only. You may check eligibility at: www.mass.gov/vaccine

If you or a loved one meet the current Massachusetts eligibility guidelines, we welcome you to call the Steward COVID-19 Vaccine Scheduling Line. The number is:

877-358-8794

Please leave your name, including the spelling of your name, the best phone number to reach you and, also specify which location is most convenient. One of our schedulers will call you back.

Please note that when we call you back, the phone number from the vaccine scheduler may display as "Spam" or "Unknown." We encourage you to answer this call so we can assist you with making your appointment.

The vaccine request line is open from 8 a.m. to 1 p.m. weekdays only. If you call and the voicemail box is full, we encourage you to call back as we will be checking the voicemail box frequently and returning messages.

When scheduling a vaccine appointment, the scheduler will provide the date, time, and location for the vaccine when they return your call.

Thank you.

In good health,

Steward Medical Group
