

Ayer Dam and Pond Management Committee

Meeting of October 21, 2013

Agenda

1. Call to order
2. Review of previous meeting minutes
3. New business

Special joint meeting with members of the Conservation Commission. The main purpose is to review a proposal from Geosyntec Consultants for conducting a comprehensive study, and submitting a report, for the management of ponds and watersheds in Ayer.

The key issue, with an effort to contain cost, will be prioritizing which aspects of the proposal would give the best benefit to the town regarding future recreational and ecological uses of these resources.
