

Ayer Recycling Committee Meeting Agenda  
December 6 2017  
Ayer Town Hall  
7pm

1. What Laurie has been up to
  - a. videos
  - b. putting RYR to bed
  - c. attending CMRC annual meeting
  - d. compost bin purchases
2. membership drive
3. informing new residents about recycling facilities
4. transfer station use for residents who only want to recycle
5. Old business
  - a. K cup recycling
  - b. multifamily recycling
  - c. publicity for stuffed animals and other textiles being collected at the library
  - d. follow-up on RDP funds. We have \$8700.

Edited list of what funds can be spent on (more at

<http://www.mass.gov/eea/docs/dep/recycle/smrpguid.pdf#page=28>):

- i. Purchase of recycling equipment, as specified.  
→ No idea where to find the “as specified” list
- ii. Procurement of environmentally preferable cleaning products, equipment and supplies from specified categories via Massachusetts State Contract FAC85.  
→ Includes rain barrels, which we’ve talked about, and compost bins. We could buy more compost bins to give away to schools and other non-profits.
- iii. Transportation and recycling of specific “hard to recycle” materials, including automotive wastes, bulky rigid plastics, consumer electronics, mercury-added products and more.  
→ I interpret this to mean that I can pay for the truck we rent to haul Styro from RYR.
- iv. Improvements to recycling collection infrastructure and sites at select locations.
- v. Production of waste reduction/recycling promotional materials.
- vi. Enhancement of school waste reduction programs.  
→ I will talk to the schools about this.
