

Monthly Parks Department Update

March/April

Spring activities are underway! Youth programs such as Tech Kids, volleyball, baseball and softball are all in full swing, and soccer and will be starting at the end of the month. The Nashoba Valley Unlimited Baseball program will also be starting in May, with many of the local school and recreation teams volunteering their time to help.

The early spring weather has been helpful in getting the playing fields ready for action. We have been fortunate to receive extra help getting Pirone Park and Sandy Pond Beach in shape, with crews coming out each week from the Middlesex Probation court system and a volunteer work day provided by Ayer Youth Baseball and Softball. The Parks Department has been working with the ASRSD to assist them in getting their ball fields ready as well. The concession stand at Pirone will be open during most sporting events. Profits from sales go directly to support the youth sports programs in town.

Registration forms for swim lessons and this year's Parks Department sponsored summer camps have been released. Forms can be downloaded online or picked up outside the Parks Department office. Many of the camps are offered for no charge or minimal costs for Ayer Residents. For more information, you can visit the Parks Department Page on the Town of Ayer website.
