## Ayer Drinking Water PFAS Update

January 12, 2024

The Ayer Department of Public Works will be providing updates regarding the various actions and issues related to the PFAS contamination in Ayer's drinking water. The update will be itemized and in no particular order or priority. If you need additional information or clarification on any of these items, contact Kimberly Abraham at 978-772-8240 or [kabraham@ayer.ma.us](mailto:kabraham@ayer.ma.us).

We continue to sample the water monthly for post- treatment PFAS6 levels and will continue to offer updates on this webpage with monitoring results.

The results for October through December sampling are as follows:

| SUPPLY                        | DATE       | MassDEP PFAS-6 (ppt) |
|-------------------------------|------------|----------------------|
| Grove Pond Finished Water     | 10/4/2023  | Non-Detect           |
|                               | 11/20/2023 | Non-Detect           |
|                               | 12/8/2023  | Non-Detect           |
| Spectacle Pond Finished Water | 10/4/2023  | Non-Detect           |
|                               | 11/20/2023 | Non-Detect           |
|                               | 12/8/2023  | Non-Detect           |

Ayer DPW Water Division Operators and staff will continue to monitor conditions in the treatment plants and the distribution system. We also continue to closely monitor the science of PFAS as it continues to evolve and respond to regulatory requirements as they unfold.
